Gentlemen:

Family Loan & Investment Co. has just completed the purchase of some property in Bonner County, Idaho, adjoining Soldier Creek, a tributary to Priest Lake. This property was purchased from Joseph F. Burdett and Bernice A. Burdett, and the conveyance included all water rights which the Burdett had, or which ran with the property.

Family Loan & Investment Co. would like to take whatever steps are necessary through your office to have the water rights transferred to its name. This property was originally owned by some people named "Handy" and upon their death was inherited by Mrs. Lottie Bridgewater. The Bridgewaters in turn, sold the property to Mr. and Mrs. Burdett, from which Family Loan & Investment Co. recently purchased it.

We enclose a photocopy of a license and certificate of water right which more completely details the water rights which we are interested in having transferred at this time. At your convenience would you please advise what procedures and forms are necessary to accomplish this.

Very truly yours,

E. J. McWilliams

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mrs. Ida M. Handy
Coolin, Idaho, Bonner Co.

Boise, Idaho,

Dear Sir:—

Under the terms of your permit No....**17231**.....you are required to complete your diversion works on or before...**Dec. 26, 1930**. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. N. CARTER
Commissioner of Reclamation.
