NOTICE OF PUBLICATION NOTICE OF PROOF APPLICATION OF WATER TO BENEFICIAL USE

Notice is hereby given that at 11:00 a. m. on the 20th day of January, 1936, at Priest River, County of Bonner, State of Idaho, before Ricka McLean, Notary Public, proof will be submitted of the application to beneficial use of 1.4 cubic feet per second of the waters of Blue Creek in accordance with the terms and conditions of Permit No. 16623 heretofore issued by the Commissioner of Reclamation of the State of Idaho.

The name and postoffice address of the person or corporation holding said permit are FRANK BAKER, Priest River, Idaho.

The use to which said water has been applied is irrigation and domestic use.

The amount applied to beneficial use is 1.4 cubic feet per second.

The place where said water is used (if for irrigation, give full and accurate description of the lands irrigated) NW $\frac{1}{4}$ NW $\frac{1}{4}$, 36 acres; NE $\frac{1}{4}$ SW $\frac{1}{4}$, 10 acres; NW $\frac{1}{4}$ SW $\frac{1}{4}$, 24 acres; all in Section 23, T. 57 N., R. 4 W., B. M.

The name of the canal or ditch or other works by which said water is conducted to such place of use is a private ditch.

The right to take water from such works is based upon Permit No. 16623.

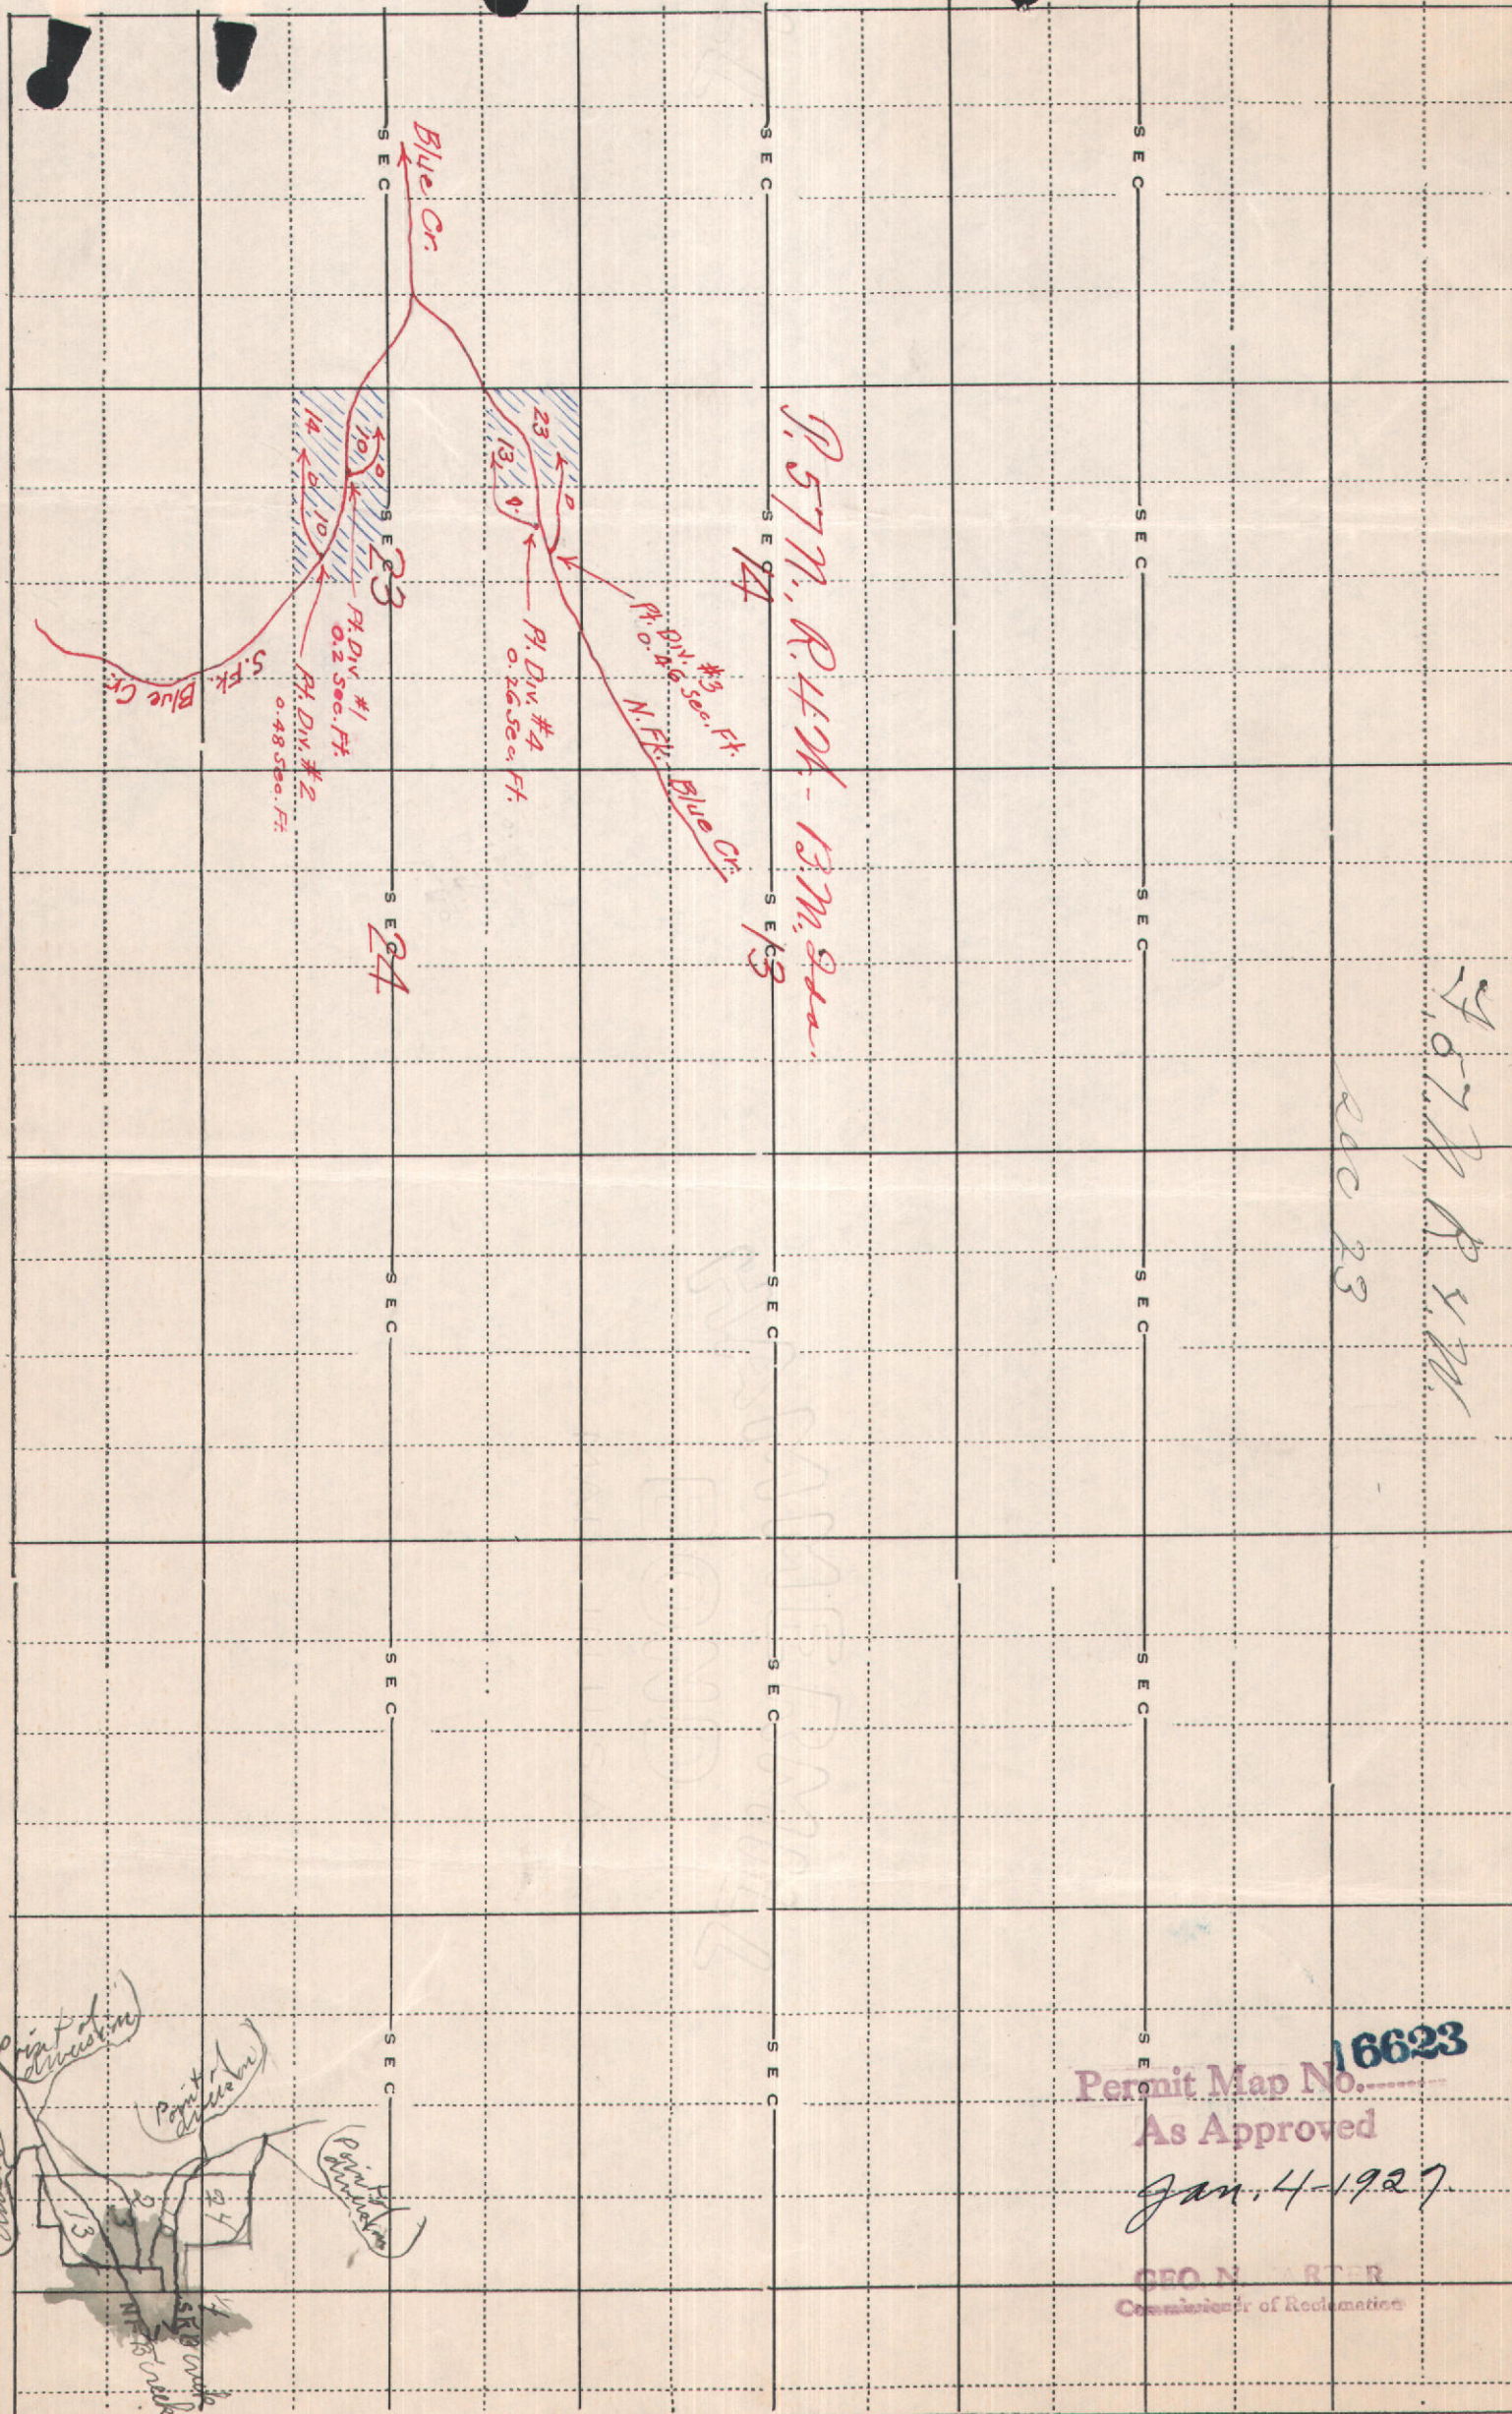

The source of supply from which such water is diverted is Blue Creek.

The date of the priority which said user is prepared to establish is January 19, 1927.

APPLICATION FOR AMENDMENT
TO PERMIT TO APPROPRIATE THE PUBLIC WATERS OF
THE STATE OF IDAHO, NO. 16623

Comes now Frank Baker, and represents to the Commissioner of Reclamation of the State of Idaho:

That he is the owner and holder of Permit to appropriate the Public Waters of the State of Idaho, No. 16623, and requests that the list of lands to be irrigated, as described in said permit, be changed to read as follows: NE $\frac{1}{4}$ NW $\frac{1}{4}$ - 3 acres, NW $\frac{1}{4}$ NW $\frac{1}{4}$ - 9 acres, SW $\frac{1}{4}$ NW $\frac{1}{4}$ - 10 acres, SE $\frac{1}{4}$ NW $\frac{1}{4}$ - 2 acres, NW $\frac{1}{4}$ SW $\frac{1}{4}$ - 3 acres, and NE $\frac{1}{4}$ SW $\frac{1}{4}$ - 3 acres, Sec. 23, T. 57 N., R. 4 W., B. M., making a total of 30 acres.

That an additional amount of water is not asked for, and that the rights of others will not be adversely affected by such change.

Signed at Priest River, this 1st day of April, 1937.

FRANK BAKER

Date of receipt at Office of Department of Reclamation: April 5, 1937

APPROVAL OF COMMISSIONER OF RECLAMATION

I, R. W. FARIS, Commissioner of Reclamation of the State of Idaho, hereby approve the above and foregoing application for amendment to Permit to appropriate the Public Waters of the State of Idaho, No. 16623. This approval constitutes a new permit and is issued as an amendment to the original permit, to which it refers, and of which it becomes a part, and said application is approved only insofar as the rights of others will not be adversely affected thereby.

Dear Mr. Kondo:

The Department of Reclamation does not keep track of ownership after license is issued.

License is made appurtenant to certain lands and can be transferred with the land as real estate.

Decreed water rights and licensed rights when changing the place of use from one place to another must be transferred through this department.

Re: Permit No. 16623

FRANK BAKER
Priest River, Idaho

Dear Sir:

This will acknowledge receipt of your letter of April 1st, together with your fee in the amount of \$12.00 for final proof under the above permit. As you know, your license will be issued for 0.6 of one second foot of water. Such right will be made appurtenant to a total of 30 acres contained in six different subdivisions.

At the time when you filed application for this permit, you showed a land list of 70 acres and the department granted you a permit for 1.4 second feet, or, in other words, at the rate of one inch per acre. You say that you are clearing more land and will therefore have need for more water.

There have been a few instances where a permit holder has offered two proofs of beneficial use and since the total quantity of water has not been absorbed, it will be possible for you to come in after you have finished clearing your land and offer another proof under this permit for the remainder of the water providing you have put an additional 40 acres under irrigation.

In this case, your second proof will be considerably overdue and this would result in a loss of priority by the amount of time that the proof is late. However, there is nothing else for you to do unless you care to refile and thus have the water for the new land included in a separate right.

Very truly yours

Re: Permit No. 16623

FRANK BAKER

Dear Sir:

We now have the Field Engineer's report covering the examination which he made in connection with final proof under Permit No. 16623.

At the time when this permit was issued, you described a portion of three different 40-acre subdivisions to be irrigated. We find upon checking the report, that your land is actually divided into 2 $\frac{1}{2}$ -acre subdivisions. However, that part of the situation is immaterial to this department, since the records were only made to show each 40-acre subdivision or portion thereof. The lands which you have actually irrigated are situated in six different 40-acre subdivisions and it will be necessary for you to file an application for amendment to the land list so that the record will be correct.

I have prepared an application showing the actual acreage which, according to the Field Engineer's report, you have irrigated, which is herewith enclosed for your signature. Kindly return this application with a fee of \$12.00 and your license will be issued for 0.6 of one second foot of water.

Dear Sir:

This will acknowledge receipt of the deposition of the holder, depositions of two witnesses and the affidavit of proof of publication from the newspaper, all in connection with beneficial use proof under the above permit.

Before final action can be taken in this matter, the law requires that a field examination be made by an engineer from this department. We are unable to say just when this examination will be made since the department has but one field engineer who makes examinations all over the state. However, Mr. Tolman, Field Engineer, for this department, will contact you at the time set for examination so that you may show him over the grounds. DEAR SIR:

I enclose herewith the following forms to be used in connection with proof of beneficial use of water under Permit No. 16623

DEPOSITION OF PERMIT HOLDER,
DEPOSITIONS OF TWO WITNESSES.

In submitting this proof the following instructions should be CAREFULLY followed out, since failure to do so may result in the loss of rights:

1. On January 20, 1936, the date set for proof, the enclosed forms (one for permit holder and one each for two disinterested witnesses) should be filled out and sworn to, at Priest River, Idaho before Ricka McLean, Notary Public

2. When the depositions have been taken they should be mailed to this office, together with affidavit of publication of notice.

When these have been received, together with report of the examining engineer, if everything is properly executed, you will be further advised as to fees due, etc., before certificate is issued.

Yours truly,

MR. FRANK BAKER
Priest River,
Idaho

Dear Sir:

This will acknowledge receipt of your notice for publication of your intention to submit final proof under the above permit and also your authorization, on our form letter, to have the notice published in the Priest River Times of Priest River, Idaho.

As you will recall, you set the date for proof as February 25, 1936, at 11:00 o'clock A. M., Before Ricka McLean. This proof will be due on the 4th day of January, 1936, and since when a proof is late the priority date is extended by an amount of time equal to the amount of time the proof is late, we have changed the date for proof to January 20th, in order to avoid any further loss in priority. This will provide ample time for the necessary four weeks publication and will you kindly appear before Ricka McLean on that date, with your two witnesses, for the purpose of executing the depositions which will be furnished the notary public in time for the proof.

A copy of the notice for publication will be forwarded to the newspaper immediately.

We trust that this will meet with your approval.

Dear Sir:

We have your letter of November 22nd in response to our notice of recent date informing you that proof of beneficial use would be due under your permit on January 4, 1934. You say that you do not have the money to make this proof at the present time. We are, therefore, enclosing blank application for extension of time. The law provides that you may have 6 years in which to apply the water to beneficial use in addition to the time allowed for the completion of the diversion works. You have had 4 years in which to apply the water to beneficial use and consequently you may have 2 more years, if that much time is necessary.

We suggest that you go before a Notary Public and execute this affidavit and mail it to this department at your earliest convenience, since if we do not receive it on or before the date when proof will be due it cannot be approved. No fee need accompany your application.

Dear Sir:—

Under the terms of your permit No. 16623 you are required to complete your diversion works on or before January 4, 1932. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

GEO. N. CARTER
Commissioner of Reclamation.

Mr Carter

As it has taken
more work than I
expected I cannot
complete the diversion
work on permit no

16623 by Jan. 1, 1930

Could I get an extension
of time, I think I
can complete it in
two years
