Mr. Frank H. Anselmo,

Dear Sir:-

In checking your notice for proof of beneficial use of water under the above permit we find that the lands to be irrigated do not agree with the lands described in the permit. The permit describes the lands as follows:

N $\frac{1}{2}$ SE $\frac{1}{4}$ and SE $\frac{1}{4}$ SE $\frac{1}{4}$ Sec. 29, T. 56N, R. 4 W.B.M.

The land described in your notice is as follows:

If the description in the notice of proof is correct, it will be necessary for you to file an application for amendment of the permit, together with duplicate maps, showing the location of the land. Nothing further will be done in regard to the proof until we are further advised by you in the matter.

We are enclosing blanks for application for amendment and maps.

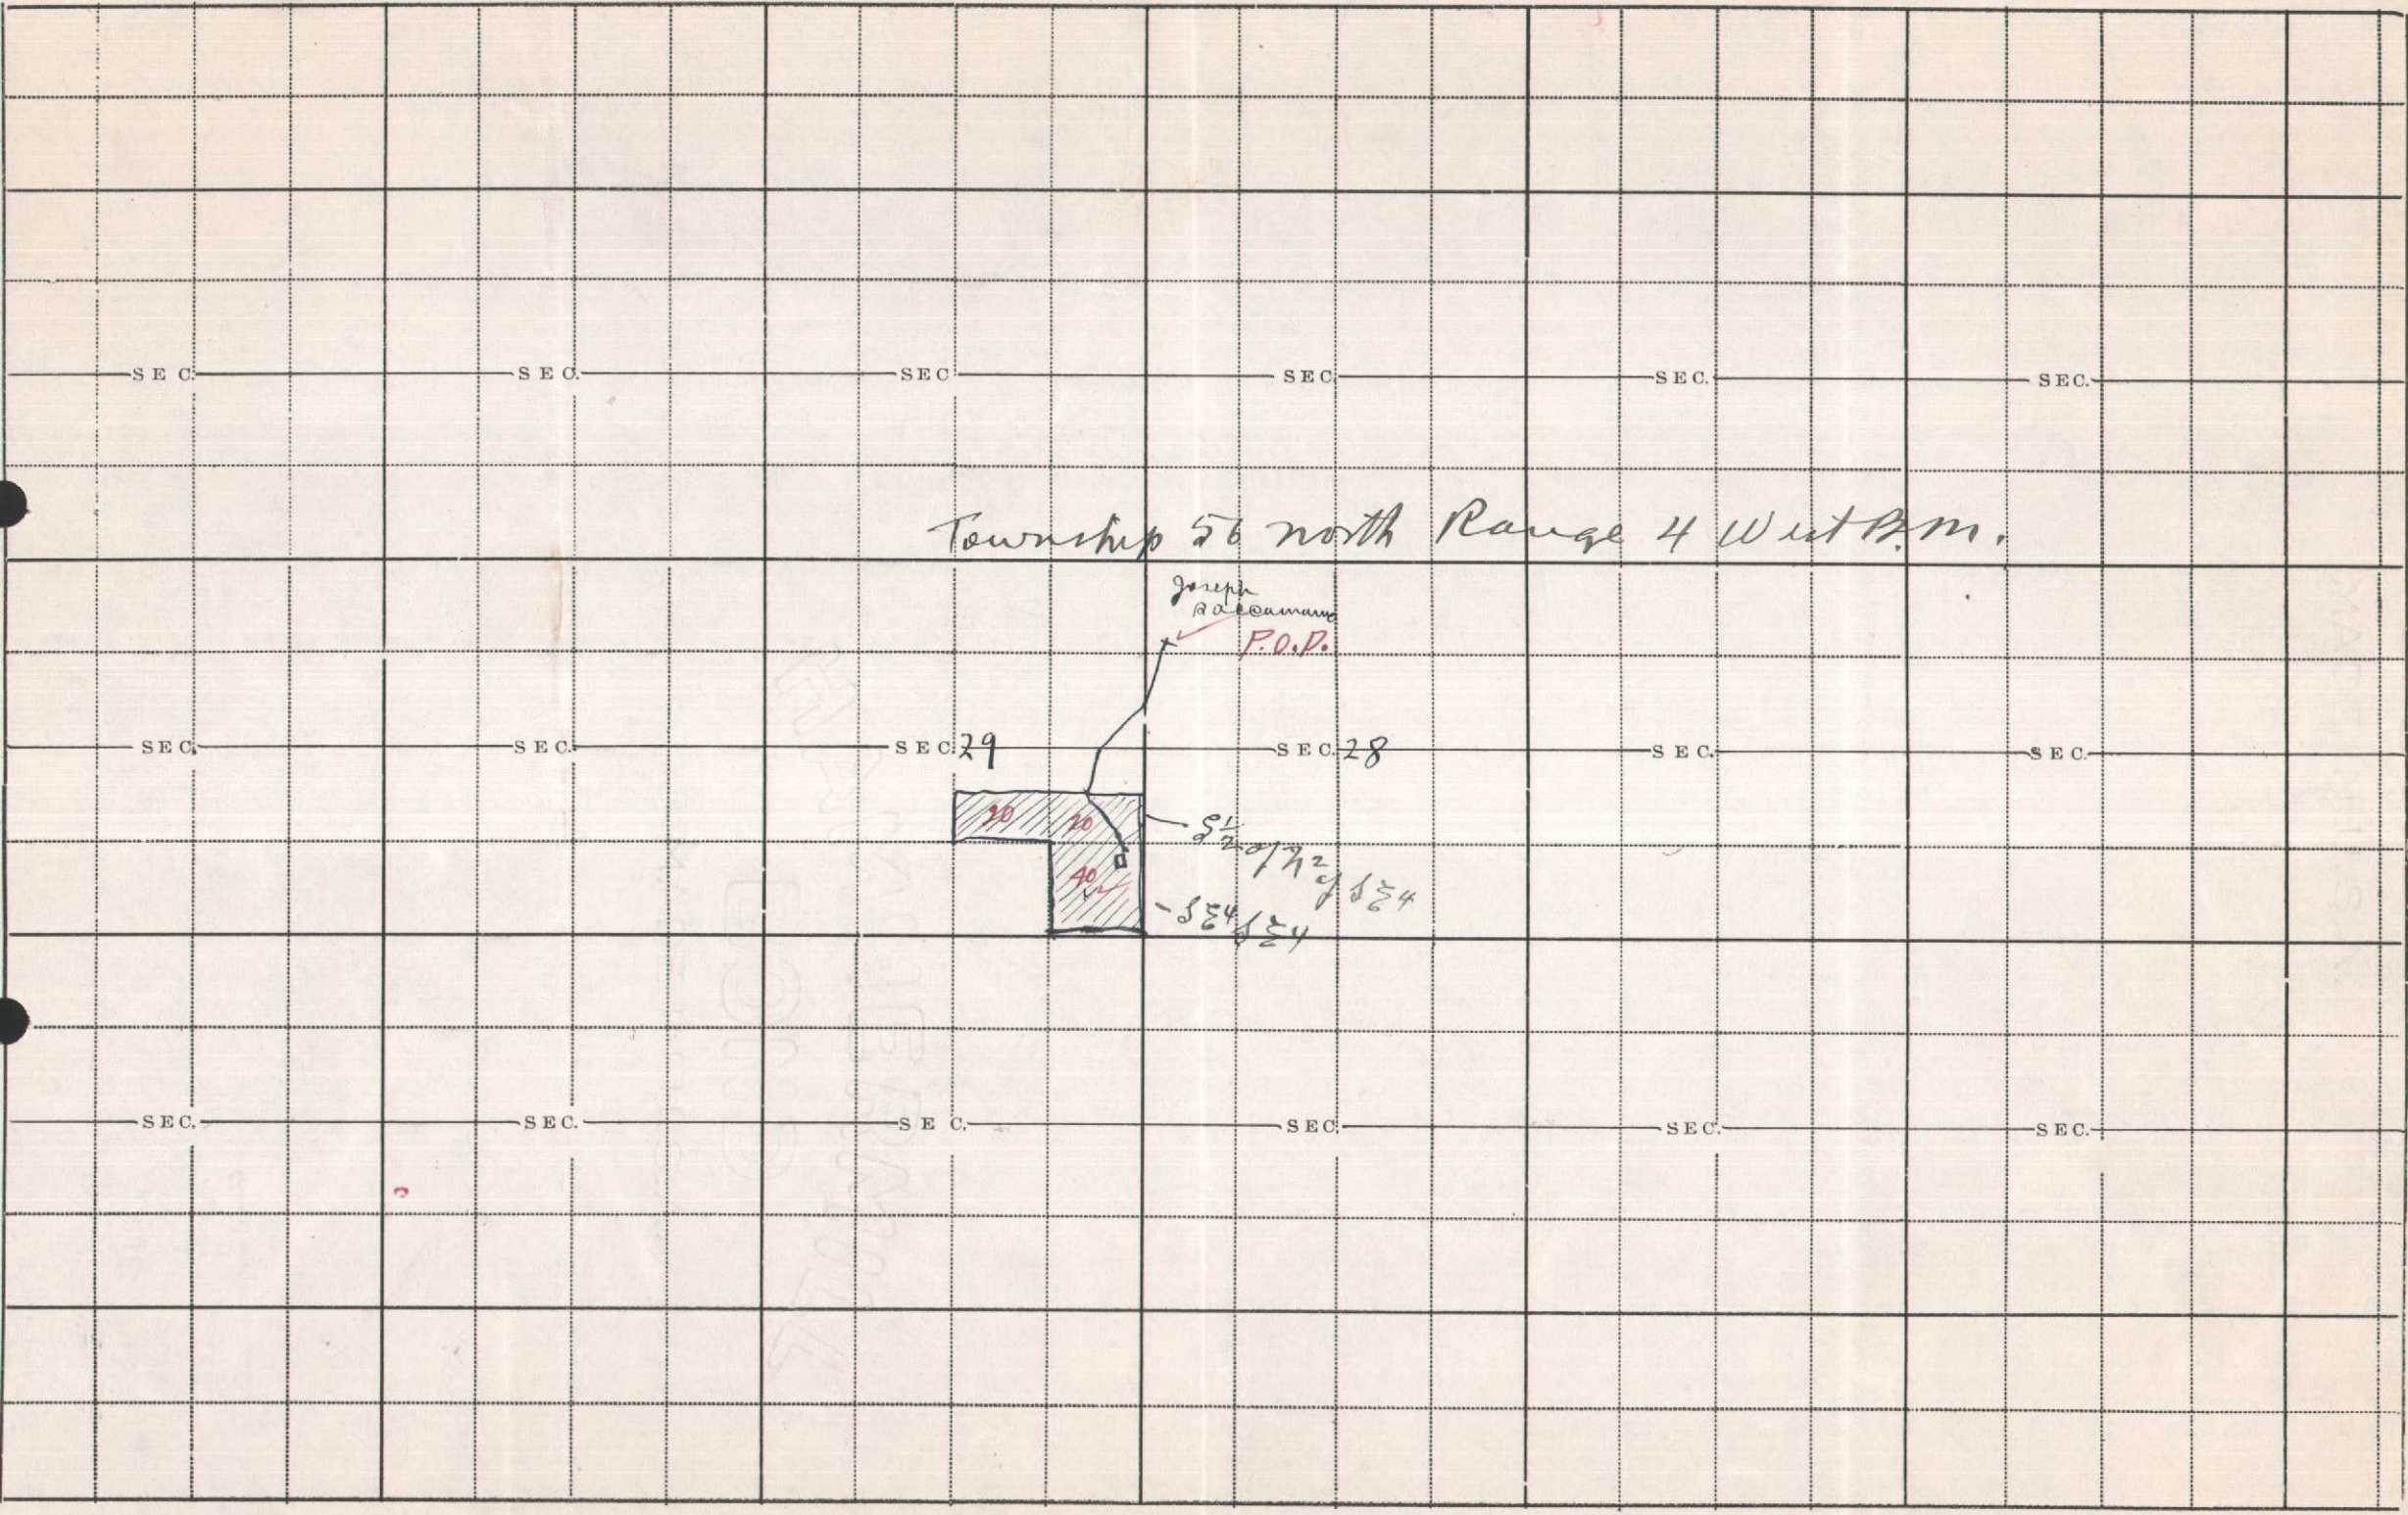

Very truly yours,

Dear Sir:

Re: Permit No. 16452, Frank H. Anselmo.

With reference to your kind favor of the 9th to the above party. He seemed mixed up on his land and so I went out to his place and went over the land with him. Now what he owns and is actually using the water on is as follows:

South half of North half ~~and~~ of the Southeast quarter, and Southeast quarter of the Southeast quarter of Section 29- Twp 56 North of Range 4 West B .M. I have had Mr. Anselmo sign the application to amend as he did not include the SW of SE in his original application for permit.

Trusting that you will find the enclosed in proper form, I am,

Yours very truly,

Allen P. Asher

Re: Permit No. 16452.

Mr. Frank H. Anselmo,
Priest River, Idaho.

Dear Sir:-

In checking your notice for proof of beneficial use of water under the above permit we find that the lands to be irrigated do not agree with the lands described in the permit. The permit describes the lands as follows:

N¹/₂SE¹ and SE¹/₄SE¹ Sec. 29, T. 56N, R. 4 W.B.M.

The land described in your notice is as follows:

S¹/₂SW¹, S¹/₄SW¹ and SE¹/₄, Sec. 29-T. 56 N., R. 4 W.B.M.

If the description in the notice of proof is correct, it will be necessary for you to file an application for amendment of the permit, together with duplicate maps, showing the location of the land. Nothing further will be done in regard to the proof until we are further advised by you in the matter.

We are enclosing blanks for application for amendment and maps.

Very truly yours,
GEO. N. CARTER,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

June 7, 1926

Dear Sir:—

Under the terms of your permit No.....~~16452~~.....you are required to complete your diversion works on or before ~~Sept. 27, 1926~~ I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
