Dear Sir:-

We are in receipt of your letter of August 24, enclosing depositions and affidavit of publication for proof of use of water under the above permit. Later in the season we expect to have an engineer in the field to make examinations in the northern part of the State and the examination of this right will be made at that time. You will then be advised as to fees before issuing license.

The statutes require a fee of \$2.00 for each forty acre tract, or fraction, under cultivation and irrigation, as shown by the engineer's report.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Boise, Idaho,

John Barry
Priest River, Idaho.

May 9, 1921

Dear Sir:—

Under the terms of your permit No. 14876, you are required to complete your diversion works on or before Aug. 24, 1921. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

W. G. Swendsen,

State Engineer.
