Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

FROM: Steve Lester 

DATE: April 6, 2004

RE: BLM Applications for Permit – 8 Files

This information pertains in varying degrees to eight BLM applications as follows: 51-12994 and 51-12995, 65-22872, 67-14447, and 69-11495 through 69-11498.

BLM filed the applications in two groups of four each. I wrote to the applicant to clarify various details as noted in my 11/7/03 letter to Mike Boltz (first group) and my 12/4/03 letter to Bob Mallis (second group).

I met with Mallis on 12/15/03 as a result of those letters. Mallis has agreed to serve as the local contact for Western Region's coordination with BLM. We discussed general information to help BLM with future applications, particularly for small stockwater ponds. Some of this information is noted in the attached "Application for Permit for Water Storage" handout provided to BLM at that meeting.

All the applications were returned to BLM at that meeting for revisions as needed. The previous letters to BLM detailed the suggested revisions.

The result of this history was an office visit by Mallis on 3/22/04. He resubmitted all eight applications at that time. **The following details should be noted in processing the amended applications:**

- Seven applications were amended on the original forms and initialed by Mallis 3/22/04 (all except 67-14447).
- Application 67-14447 was amended with a replacement application that day. Mallis cannot locate the original application initially received by IDWR on 10/3/03 per receipt W030981. The receipt documented filing of the original application, and I remember seeing it as well as returning it to BLM on 3/22/04. Mallis recalled the same things.
- Expansions are not proposed by the amended applications, leaving priorities unchanged.

MICROFILMED

APR 15 2004

- Applications listing storage as a use only cover a one-time fill per year per BLM's request (51-12994, 65-22872 and 67-14447).
- Applications 51-12994 and 51-12995 cover the same stock allotment. The Basin 69 applications cover a single stock allotment.
- **This memo and related documents are filed for convenience in Application 65-22872 instead of copying documents to the other files.**
