Ms. Cox:

The Pocatello Field Office of the Bureau of Land Management (BLM) is sending you this letter to file a protest on the new Applications for Water for the Sam's Hollow Water Company, application numbers 11-7481 & 11-7491. The portion of these applications that the BLM is protesting includes the following legal descriptions:

T16S R43E S10 SENW & NESW

Both of these forty acre parcels are currently managed by the BLM Pocatello Field Office.

It states on the application under Other Information, Applicants Remarks: "...BLM owns SE ¼ NW ¼, NE ¼ SW ¼, Sec 10 T16S R43E. Applicant is in the process of acquiring this property via exchange."

The applicant may have expressed an interest in or sent in a proposal for an exchange, however, the BLM has not entered into an agreement with the applicant. It has not been determined by the BLM how or when these parcels will be disposed of. Currently the land exchange workload for the BLM is a very low priority. Any exchanges that may be entertained would take many years to complete.

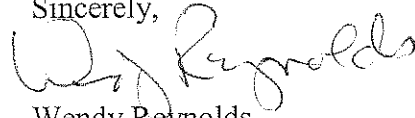

These parcels of land are also under a Sikes Act Agreement with a Memorandum of Understanding with the Idaho Department of Fish & Games for conservation management of wildlife habitat.

The only resolution to the BLM's protest will be to remove T16S R43E S10 SENW & NESW from the applications for both 11-7481 & 11-7491.
