Re: Application For Transfer of Water Right, 72849.

Dear Mrs. Duddleston:

As per our telephone conversation, I am returning the original application for a transfer so Karen and James can initial two apparent changes on the first page as indicated and for James to sign the application in Part 3 which includes the signature page.

The reason for this request is all the ownership documents (Ownership Form and Water Right Deed) say "and", therefore James signature needs to be included on the application for the transfer in order to change the point of use. If both parties sign the application that is labeled "and/or" on the applicant line, the department can change the name connector thru the transfer.

Once the requested information is complete, please return the application to me for further processing. I apologize if this has caused you any inconvenience and if you have any questions, don't hesitate to contact me at this office.

Sincerely,

Keith E. Franklin
Senior Water Resources Agent
