RE: Permit No. 37-7682

Dear Permit Holder:

Permit No. 37-7682, which allows for municipal use from groundwater, is currently being reviewed for licensing. Our review has revealed two issues that need to be addressed.

The Department's field examiner who visited the site in June of 1989 reported that the capacity of your system is approximately 3.12 cfs. However, because you submitted your Exam Fee Information Sheet for Permit No. 37-7682 for only 3.0 cfs and paid a \$150.00 examination fee, the license will be limited to a diversion rate of 3.0 cfs. I have enclosed a copy of your Exam Fee Information Sheet for your reference.

If you want your water right license to reflect the 3.12 cfs allowed under your permit, you must submit an additional examination fee of \$25.00 required for a diversion of 3.12 cfs, plus the late penalty of \$25.00, within 14 days. If I do not receive these fees within 14 days, I will assume you wish the diversion rate to remain unchanged and permit 37-7682 will be licensed with a diversion rate of 3.0 cfs.

Secondly, we need the most up-to-date service area map for the City of Ketchum. Digital format is preferred (ArcView shapefile or CAD), but a paper map with the service area boundary clearly marked would be fine too.

If you have any questions, please contact me at (208) 287-4949 or erin.retelle@idwr.idaho.gov.

Sincerely,

A handwritten signature in black ink, appearing to read 'Erin A. Retelle', is written over a horizontal line.

Erin Retelle
Senior Water Resource Agent

*Checks should be made payable to the
Idaho Department of Water Resources (IDWR.)

A license examination fee is not required in connection with
permits which use a ground water source **AND** have a total rate of
diversion of 0.04 cfs or less or where the total volume stored is 4.0 AF per annum or less.

A license exam fee is required for ANY permit which uses surface water.
