Re: Water Right Application No. 72-16701 (Jacobs)

Dear Allen,

Idaho Department of Fish and Game staff has reviewed the above water right application from Mr. and Mrs. Jacobs to pump up to 0.09 cfs from the Salmon River to irrigate 2.82 acres adjacent to the Salmon River near French Creek. We have no objection to permit issuance or concern regarding impacts to fish or fish habitat. We request that if the application is approved, Mr. And Mrs. Jacobs contact the Idaho Department of Fish and Game Screen Program (756-6022), to ensure their pump intake is properly screened to prevent entrainment of juvenile salmonids.

Thank you for the opportunity to review this application and provide comments.

Sincerely,

James R. Lukens
Regional Supervisor

RE: Water Rights Application Comments

Dear Mr. Jacobs:

The Idaho Department of Environmental Quality ("Department") has reviewed our existing water quality information near your proposed project site identified in Application 72-16701.

We have conducted no monitoring in the immediate vicinity of your point of diversion and do not possess any other water quality information concerning the area.

If you maintain the approved screening on your intake pipe, we do not believe your use of water will have an impact on the Salmon River.

Please do not hesitate to contact me at 208.528.2650 for additional information we may be able to provide.

Thank you for the opportunity to review your application.

Sincerely,

A handwritten signature in black ink, appearing to read "Troy Saffle", is written over a horizontal line.
