RE: App For Transfer 70893

Dear Bob;

Although you told me that Water Right 47-2145 is not used on the land that you propose to dry up as mitigation for this transfer, it is recommended for use on the same fields that you said are irrigated just with canal water. No claims have been filed on the pasture north of the buildings, and this land does not appear to have been irrigated in a long time. Since there is no way for you to legally reduce the place of use for canal shares, and the canal company certainly won't do it, your mitigation plan is not acceptable. Unless you can come up with an acceptable plan, I will have to send your application to our Boise office for denial.

Please respond by October 18.

Regards,

James E. Stanton
Sr. Water Resource Agent
