Shelley - I am sending you a COO on this right. The mother passed away, leaving 1/2 interest in the property to her two sons. Their uncle still owns 1/2 interest, but they are in the process of buying him out. They are requested expedited processing of the COO to substitute their names for that of their mother. Once the sale is completed, they will have to file another COO to get the uncle off of the water right. I made no promises, but said I would pass their request for expedited processing on to Boise. I will give the COO to Trish so she can log it out when she gets back from vacation next week. Thanks.
