

View showing irrigated area between residence (left edge of view) and horse barn. Domestic uses include residence and a sink in the barn. Horses were not present at time of exam. Mr. McAllister said they were grazing on some different property. Facilities are definitely intended for horses and horses have been present. Mr. McAllister said that five horses are the most that have ever been housed at the facility. Pond in center of view is fed by water from Big Wood River, apparantly rights 37-00557, 37-00558, and 37-00559. Transfer applications have been filed to show the pond use(s) and add supplemental (to groundwater) irrigation use.

FIELD EXAM FOR 37-08461 PHOTOS TAKEN 06/28/96 BY COREY SKINNER.

View showing irrigated area between horse barn and tennis courts. Bridge visible at right edge of photo is over waterway fed by Big Wood River.

View showing irrigated ground at the back of Lot 34 of Flying Heart Ranch Number II Subdivision. Photo was taken from North Boundary of Lot 34 at Big Wood River's edge looking south to south easterly.

View showing point of diversion (well indicated by arrow). Fence in background is north boundary of Lot 34 Flying Heart Ranch Number II subdivision. Residence in background is on Lot 33 and owned by someone else.

View showing residence (guest house) and irrigated ground around residence. Arrow indicates location of garage doorway shown on system diagram on page one of Field Report.

View from under residence, near garage, showing pump, motor & pressure tanks.
