Re: Application for Water Right Transfer for Replacement and New Well.

Dear Gerald,

Please find enclosed the original copy of your transfer application. In order to proceed with this application, it requires to be signed by an authorized agent of the Company in the presence of a Notary Public. The title of the authorized officer should accompany his/her name. Because of the included authorization letter from the board, it appears that you could sign and note your title along with your name.

The proposed new well appears to be proposed upon BLM ground. We require authorization from BLM for this new well.

Please sign the application and provide the letter from the BLM and return to my attention along with all materials that I have included with the application package. Also, I have calculated a total cost of \$690 that will need to be remitted upon return of the application.

If you have any questions, please call.

Sincerely,

W. Roger Warner
Water Right Supervisor – Eastern Region

Enclosures: Original Transfer Application Package to be signed and returned with \$690.
