Subject: Dept. of Corrections Transfer & Amendment Applications

Gene & Rob:

IDOC filed two applications to change all of its rights at the old & new prison facilities south of Boise along Pleasant Valley Road. There are 9 rights involved, starting with number 63-03271 and ending with claim A63-30298. The transfer covers 8 rights while the amendment covers one permit (63-12296).

The plan is to create a large PPOU for the state land. The 7 existing wells would serve all the irrigation & other needs for the site. The non-irrigation uses will be changed to municipal to simplify everything. Here is why this message is sent to you:

Gene - transfer application refers to some discharge of water into Tenmile Creek, which may require SCA approval.

Rob - public water supply issues would most likely be critical for any of the existing wells that will serve human needs, might require some retrofitting for well or wells.

Please add any comments you have to the files so Gary can see them in the final regional review. The files are at Sue's desk for advertising in the last half of this month.

thanks,

Steve

*yes A SCA will be required for the outfall
from both C.O.E. & IDWR*
