RE: Applications: Transfer of Water Right and Amendment of Permit
State of Idaho – Department of Corrections

Dear Mr. Spackman:

We are enclosing: (1) a completed Application for Transfer covering five licensed water rights and three beneficial use claims, and (2) a completed Application for Amendment of one Permit. These all relate to the prison facilities south of Boise that are under the Department of Correction's jurisdiction.

A principal objective of ours in filing these applications is to establish an enlarged Permissible Place of Use, that corresponds to the property ownership, which will provide needed flexibility for our present and future operations. It is important to note that these applications do not provide for any change or increase of the existing diversion rates, annual volumes, or irrigated areas that are authorized under our present licenses or permit.

We have also requested in these applications that the designation "Municipal Use" be substituted for the existing designation of "Domestic Use" in order to better represent, and conform to, the actual use of water at the complex. The present designation of "Irrigation Use" has been retained.

Assuming that your Department approves these two applications, we understand that all of the Claims that have been previously filed for these existing rights with the Snake River Basin Adjudication office will be automatically amended to conform to the new provisions. If this is not the case, please let us know.

If you have any questions during the processing of these applications, please contact our consultant: Keith E. Anderson, 432 Summit Ridge, Boise, ID 83702, (208) 336-2718.

Our remittance of \$200.00 to cover the cost of processing the applications is also enclosed.

Sincerely,

Pat Donaldson
Building Operations Manager
