

MEMORANDUM

Date: October 31, 2006
To: Transfer 72955
From: dcarlson
Re: transfer evaluation

This transfer proposes to replace a well, correct the legal description of another well, and change the place of use to remove BLM trespass issues and resolve SRBA objections. Also, lands in Section 35 were recommended in error, tax lot information was the problem. No real irrigation of Section 35 lands were ever irrigated from these water rights.

Authority to File:

Applicant is the owner of record as far as SRBA claim and recommendation.

Water Right Validity:

This water right was recommended in the SRBA in 2005. Forfeiture is not an issue.

Injury to Other Water Rights:

Inside the ESPA area and in East Grounwater measurement district.

Wells are within the place of use, no analysis is needed.

Transfer will be advertised to determine any protests.

Enlargement of Use:

There is no evidence of enlargement of use.

Local Public Interest:

No issues identified

Beneficial Use / Conervation of Water Resources:

No issue identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
