RE: Permit No. 37-21294

Dear Permit Holder:

Enclosed is the original Request for Extension of Time ("extension") that you submitted to the department in connection with the above referenced water right permit. I am returning the form to you, and request that you pay the \$50.00 filing fee. Because this permit lapsed on July 1, 2006, it is also important to return the request with the filing fee immediately. According to the lapse notice dated July 10, 2006, you have 60-days from the date of the letter to file the appropriate form with the department for reinstatement of the permit.

You have stated on both your extension requests that DEQ has caused you of delay the development of this permit. You have had one year of development from the issuance of this permit, and one year for an extension based on due diligence. I recommend that you request more than one year, but no more than five years to complete the development of this permit and to file proof with the department.

Additional basis for delays that the department can accept and according to Idaho Code Section 42-204(1), are either by a federal agency, specifically based on "failure to obtain necessary consent or final approval or rejection" due to "the pendency of an application for right of way or other matter within the jurisdiction of the United States," or "litigation of any nature." However, in order to qualify for these extensions the department must receive evidence of the delay and the length of time these delays affected the permit holder. The department will then determine the amount of time to extend based on the evidence provided.
