WATER RESOURCES

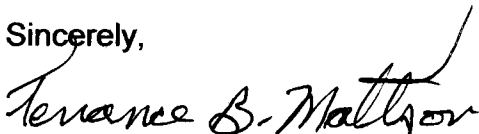

Re: 11-7476

It has recently come to my attention that an application was filed and a permit issued to appropriate water which is located on my property. In order to do this, this person also crossed my brother's property. As far as I know, a license has not yet been issued.

The property in question is described as follows: NENWSE S28 T15S R43E, BEAR LAKE County, Idaho. This is the same description as is on my Warranty Deed, a copy of which is enclosed. My Warranty Deed states that "all oil, gas, mineral and water rights are to be transferred with this Warranty Deed to the owners listed above" (which is myself).

I live in Nevada and was never notified that this action was to take place. If you can shed any light on this situation and/or advise what steps can be taken to stop the license from being issued, please contact me at the address (or phone number) listed below.

Sincerely,

Terrance B. Mattson
