Attached is the list of current Certified Water Right Examiners and their contact information. These individuals are certified by the department to conduct an examination of water rights for the propose of filing a Proof of Beneficial Use ("proof") and a Beneficial Use Field Report(s) ("report") with the department. If you decide to have them conduct the examination, a completed proof is to be filed with their report. (No payment of the license exam fee is required.) I recommend that if you contact an examiner, that you ask if they can complete the examination and file the proof and report on or before the proof deadline. If they cannot, you may consider filing a Request for Extension of Time and request the minimum extension (one-year) in order to complete the examination.

Please contact me at the above number if you have any problems with the transmission of this fax, or if you have any questions.
