No likely adverse effects.

Needs the following screening condition or similar:

The pump intake shall be placed in a screened box with mesh size not to exceed .25 inch.

FYI &/or comment please,

an Application for Transfer has been filed with the Idaho Department of Water Resources for changes to water rights within Twin Falls County. **EDWIN R. & VALERIE A. SMITH, 44 DRY GULCH; HANSEN ID 83334 initially filed Application No. 71738** on 1/28/2005. This transfer proposes to change the point of diversion for two Rock Creek rights from a headgate to a pump site a little further downstream, and to move 9 acres of supplemental ground water from the Filer area to the Smith land on the west side of Rock Creek. The ground water will be used to irrigation a portion of the property once the Rock Creek rights are shut off by the watermaster under a priority cut. The land near Filer will no longer be irrigated. The Rock Creek property is located 8 to 8 1/2 miles south of Hansen between Rock Creek and the 3800 East Road.

Jim staffed this one.
