Re: Water Permit Application No. 86-11945 – Port of Lewiston

The Department of Water Resources is seeking written comment and/or recommendations from your agency regarding the above referenced water right application. A copy of the application follows for your reference.

This is to add a point of diversion, but will not change anything else in the original permit. The Port might need an additional encroachment permit from you for this. That will not affect the approval of the amendment.

We are sending this to you for your comments, and would appreciate receiving your comments by no later than **August 4, 2006**. If we do not hear from you by that date, we will assume that no comment from you means you have no objection to, concerns about, or conditions pertaining to the issuance of this permit.

You may send comments by regular mail to the address above, by FAX to 769-1454, or by e-mail to Keith.Franklin@idwr.idaho.gov, or to me, Dianne.Ball@idwr.idaho.gov.

Please contact this office if you have any questions regarding the application.

Sincerely,

Dianne Ball
Administrative Assistant
