August 16, 2006

To W Roger Warner or Sharla,

I received your letter dated 8/3/06 requesting a comment from the County or City or Canal or Irrigation District for the application for water right # 75-14311 and I have exhausted the list you sent me of contact names and have talked to at least 5 to 6 people at these numbers and have called their recommended names and numbers to include Lemhi County and even talked to the County Commissioner and virtually no one knows anyone that can help me get that letter that you requested. It seems there is no water or irrigation or canal district for my area.

I will continue to try and get the information but I need some help contacting someone who will be able to give me that letter. Please assist me in gathering this last piece of information you need or process my application without it.

Thank You for your time.

Patricia A. Townsend
