Re: Permit Nos. 63-32128, 63-32129, 63-32133, and 63-32134

Dear Ms. Kaufmann:

Thank you for your letter of August 22, 2006. I apologize for the delay responding to it. I have reviewed the files you referenced in that letter, and the following are the results of my research:

**Permit No. 63-32128:** An assignment of permit was filed with the department that assigned the permit to Mark Parent, M.D. Additionally, a proof of beneficial use was filed on July 28, 2006.

**Permit No. 63-32129, 63-32133, 63-32134:** These files have had nothing filed and will lapse on September 1, 2006. These permits can be reinstated upon receipt of either a proof of beneficial use, or if a request for extension of time is received by the department within 60-days from the Lapse Notice date. However, any filing after the September 1 deadline will result in a day of priority being removed from the original priority date.

Additionally, according to your letter you anticipate a real estate closing for the property associated with water right permit no. 63-32133. You asked that I respond to you with directions for filing the appropriate documents in response to my proof due notice letter. My suggestions to you would depend on whether the house was constructed and connected to waterlines and the new owners were ready to move in; or, if the property has had no development, and how long the new owners would need to complete the water system and connect a home?

The department will require an Assignment of Permit completed by Deer Point Ranch conveying the property to the new owner(s). The new owner(s) will need to file the assignment with the department along with a \$25.00 filing fee, preferably at the same time they file a request for extension or a proof of beneficial use.

If I can be of further assistance to you, please let me know. I can also provide you with copies of the appropriate forms for complying with the proof deadline and assignment, or you may download them from the department's web page:
