Department of Water Resources
Permit to Appropriate Water
NO. 75-14143

Priority: November 24, 2003

Maximum Diversion Rate: 0.04 CFS

This is to certify, that THEODORE J ROYER And MARY B ROYER
6538 MELINDA DR
NASHVILLE TN 37205

have applied for a permit to appropriate water from:

Source: UNNAMED STREAM **Tributary:** NORTH FORK SALMON RIVER

and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
DOMESTIC	01/01 to 12/31	0.04 CFS

LOCATION OF POINT OF DIVERSION:

UNNAMED STREAM SW¼SW¼ Sec. 23, Twp 26N, Rge 21E, B.M., LEMHI County

PLACE OF USE: DOMESTIC

Twp Rge Sec	NE				NW				SW				SE				Totals
	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
26N 21E 23											X						

CONDITIONS OF APPROVAL

1. Proof of application of water to beneficial use shall be submitted on or before **February 01, 2006**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Point of diversion and place of use are located on private land, also known as Homestead Entry Survey (HES) 432.
5. Domestic use is for 1 home and does not include lawn, garden, landscape, or other types of irrigation.
6. The domestic use authorized under this right shall not exceed 13,000 gallons per day per home.
7. Prior to the diversion and use of water under this approval, the right holder shall comply with all fish screening requirements of the Idaho Department of Fish and Game.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 13th day of February, 2004.

RE: Permit No. 75-14143

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

MICROFILMED

JUL 15 2004

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name being the most prominent.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Comment Report

75-14143

1. kwalker 2/12/2004 Permit Review

Comment: Changed source to unnamed stream rather than unnamed creek. Not up to data entry standards. USFS believes this application is for land in NWSW rather than SWSW as shown on app. They did not protest since this is an unsurveyed area and will let field examination determine actual location. Must include condition stating pd and pu are located within HES 432 to clarify where use will be located. Can process even though located in Wilderness and Salmon-Clearwater moratorium area since for domestic use only.

RE: Correct Legal Location

The US Forest Service has contacted the Department with information in the form of a Provisional USGS topographic map showing the legal location for Application 75-14143 may be incorrect. The map indicates the point of diversion is in the NW SW of Section 23, R21E T26N.

The Forest Service will not protest the application but will wait for the field exam to determine the correct location of the POD.

The property owned by the Royer's is Homestead Entry 432.

See US Forest Service letter dated December 24, 2003 in the file.

DEC 25 2003

Department of Water Resources
Eastern District Office

Dear Dennis,

We have contacted you about Application For Permit No. 75-14143 filed by Mary and Theodore Royer to divert water from an unnamed creek in the SWSW of Section 23, T26N, R21E for domestic purposes. We have a concern about the exact location and legal description of this proposed use of water.

The legal description on the application is the SWSW of Section 23, T26N, R21E. As shown on the application this area is not surveyed, and on the map the location is labeled 'approximate'. I discussed this briefly with Mr. Royer this morning on the telephone. He verified to me that the point of diversion and place of use are on his private land.

Because part of the SWSW of Section 23 is National Forest System (NFS) land we would like to provide additional information to IDWR and the applicant pertaining to the legal description. We desire that the location be described in more specific terms to assure to all parties that the water diversion and use are on private land and not on NFS land. Maps verifying this supportive information accompany this letter.

We agree the area is 'unsurveyed' with respect to the section, township and range required by the Public Land Survey (PLS) system used in the United States. However, the area is legally surveyed and recorded as Homestead Entry Survey 432. It was accepted by the General Land Office of the United States November 12, 1917. The correct legal description of the private land is 'part of Homestead Entry Survey 432'. The 1917 map even shows the sections projected at that time.

This information is substantially similar to the USGS map available to the Forest Service showing projected sections and the various lands patented (private land) through Homestead Entry Survey and Mineral Survey transactions. These maps clearly show that Johnson Creek is not in the SWSW of Section 23. We estimate the actual projected quarter-quarter for the point of diversion and place of use for this water right should be the NWSW of Section 23. The area will still remain 'unsurveyed' with respect to the PLS. So to assure that there is no confusion as to whether or not that location is on NFS land or private land we request that the legal location or remarks also indicate that **the point of diversion and place of use for this water right are on private land, part of Homestead Entry Survey (HES) 432**. We have used this language quite extensively in similar situations in the Snake River Basin Adjudication.

MICHAEL MED

DEC 25 2003

Caring for the Land and Serving People

Printed on Recycled Paper

As we discussed, these changes and additions could take place when the water right is licensed. This would avoid additional administrative costs, inconvenience and delay at this time. We agree and will not protest this application with the understanding that the above suggested actions be duly considered at the time of licensing.

One small correction you may want to make at the present time is that the area code for the Royer's Nashville, Tennessee telephone number is shown on your electronic records as being (616). It needs to be corrected to **(615)**.

If you have any questions about this matter please contact me.

RE: Application for Permit No 75-14143

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Recorder Herald on December 18 and 25, 2003. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved.

Please feel free to contact this office if you have any questions.

Sincerely,

W Roger Warner
Water Rights Supervisor
