RE: Ownership of Water Rights

Dear Mrs. Volle:

We are in receipt of the licensing amendment for Permit 67-2219 and your note that requests removal of the name of George Volle before issuance of the license. Enclosed, for your convenience, is a "Notice of Change in Water Right Ownership" form. Please note that in order to change or remove a name on water right records, we must have a "Notice of Change in Water Right Ownership" form completed, signed on page 2 of the form, and submitted with documentation showing current ownership of the property. There is no ownership change fee required for removal of the name of a spouse who is deceased. We have searched our computer records and found there are other water rights in both of your names. We have entered the water right numbers on the ownership change form for your convenience. Documentation of the ownership change on the rights with both of your names as right holders could be a copy of a death certificate.

We also have one water right that is in the name of George Volle only. That right is number 67-7706 and we must have further documentation to change the ownership of this right. We have enclosed a second ownership change form for use in changing this right to your name. The documentation for this change could be a copy of a personal representative assignment or a will transferring the property to you. This change in ownership will require a \$25.00 ownership change fee be submitted.

The Department is in final stages of recommending claims in your area to the Snake River Basin Adjudication court in Twin Falls. Please submit the forms and documentation on or before July 28, 2006. If we don't receive the information by that date, we will submit the proposed license of Rt. 67-2219 to our administrators for signature with both names shown as current owners. If you have any questions in regard to this matter, please do not hesitate to contact me at (208)287-4953.

Sincerely,

KAY WALKER
Sr. Water Resource Agent
