Did a study from Forgren Engineering - Analysis water system - Water Rights, ability to get right to system - Water Storage, dampen peak demands due to buffer and fire system - Water Quality, DDO monitor on regular basis - Distribution System

On Model we recommended - Water Right it was domestic - They look at municipal - Nature of development more water is available ~~later~~ than consumed. Finalization - Beneficial Use Exam needed to be completed - Municipal can be used within the district - How to improve system - such as pipe size -

Flexibility of use - adding more homes.

330 lots -

64 homes - Kington made & set-up.

System is limited - If other lots can't be built -
