

Will 19ms 1-1-12
Water Mgr. Dept. of Irrigation
Received Time Apr. 29. 9:14 AM

To

Mr Warner: State of Idaho.
IWR 4-28-06
Investigative officer.

This is an example of
how a Bad Run Water
System Meets the conservation
Rules without Water Police.

The Board knows nothing, the Mgr
cant get on his own over there
so this is result. Waste!

7 People living in 5 yr Round
Home use
21,900 gal of Water per day!?

And its been going on almost forever
with these people.

That 4350 gal of Water / day / home.

Is this conservation? - or the intent
of the people of Idaho?

This my protest, Please

Williams Lake Maintenance Report

Month April

Water Usage

Is this report for Grossman?

Dates old/new	Days between	Pump 3 readings New/Old	Total Time
