Re: Water Right Application No. 72-16703 (Campbell/McGinley)

Dear Allen,

Idaho Department of Fish and Game Department staff has reviewed the above application for 0.2 cfs from the East Fork Salmon River to irrigate 5 acres. The withdrawal will not negatively impact fish or aquatic resources and we are not opposed to the permit issuance. However, we request that if the application is approved, the applicant contact the Idaho Anadromous Fish Screen Program (756-6022) so that it can be determined if the diversion is properly screened to prevent entrainment of juvenile fish.

Thank you for the opportunity to review this application and provide comments.

Sincerely,

James R. Lukens
Regional Supervisor
