STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED
AUG 07 2006
DEPT. OF WATER RESOURCES
SOUTHERN REGION

NOTICE OF PROTEST

This form may be used to file a protest with the department under sections 42-108B, 42-203A, 42-203C, 42-211, 42-222 and 42-224, Idaho Code. The department will also accept a timely protest not completed on this form if it contains the same information.

1. Matter being protested Water transfer to a CAFO permit
2. Name of protestant Dean Eden Dimond
3. Protestant's Representative for service (If different than protestant)

4. Service mailing address 1454 Hwy 25 Jerome ID 83338
5. Service telephone no. (208) 825-5055
6. Basis of protest (including statement of facts and law upon which the protest is based)

(additional pages may be attached to describe nature of the protest)

7. What would resolve your protest? a denial of transfer

I hereby, acknowledge that if I, or my designated representative, fails to appear at any regularly scheduled conference or hearing in the matter of which I have been notified at the address above, the department may issue a notice of proposed default against me in this matter for failure to appear. I also verify that I have served a copy of this protest upon the applicant.

Signed this 8/05 day of _____, ²⁰⁰⁶~~2000~~

Dean Dimond

Attachment One

We would ask that ~~The~~ Idaho State Department of Water Resources to deny this transfer. We submit that ~~the~~ transfer would allow the placement of an extremely large number of animals directly upstream of our house well with the overwhelming probability of contamination. Due to the geographical location the probability of sink holes opening to the aquifer also poses a great threat of contamination. The proposed site of transfer is also a direct threat to a State designated Aquifer Recharge Site. The proposed CAFO is directly upstream of the recharge site, with the number of animals proposed, drainage and ground water contamination is a viable threat. After research in surrounding well depths we feel the change in water usage would in all likelihood take our water rendering our house well useless. The farm dealing with the proposed transfer has not been irrigating all the ground that the transfer contains, this in itself we feel shows that a greater draw on the aquifer will take place. Also in conjunction with the current decision of Judge Wood this transfer should be withheld until the IDWR can change their practices to make all transfers legal.
