MEMORANDUM

TO: Young & Young Water Right Files

FROM: Pam Skaggs²⁸/State Office

SUBJECT: Transfer 5167

DATE: May 6, 1998

Transfer 5167 changes and adds points of diversion, and creates an 8,574.0 acre permissible place of use. The applicant is combining multiple groundwater rights, wells & pivots in a single large interconnected system.

The rights involved have been previously transferred under Transfers 4829, 4830, 4831 and 4895, and additional rights recently purchased. 77 rights or parts of rights were on the original application. 30 of these rights, unencumbered by limiting conditions, have been combined by common priority into 12 new rights. 59 rights appear on the final approval document.

Region staff identified possible errors in a couple of the past approvals referring only to previous file information. I researched the rights and files in question and did not find supporting information to modify the previous approvals. I have attached an overlap of all the original rights, table of combined rights and a draft of rights for the final approval.

Recommended conditions include drilling permit requirements, annual measuring & reporting, irrigation overlap, permissible place of use, combined limits, trust water conditions (36-08251E), enlargement right condition where applicable and standard transfer conditions.
