PROOF OF BENEFICIAL USE

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 95-09125 Telephone No. 208/777-1209
2. Name of Permit Holder(s): Adam Olscamp & Jonna Olscamp
3. Mailing Address: 513 S. Idaho Rd
City Post Falls State ID Zip 83854
4. Source of Water: Spokane River If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____
a. Well Driller: _____ Drilling Permit Number: _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): MA 1.5 approximate
6. Total rate of diversion and/or volume for which proof is submitted: .03 cfs OR _____ acre feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes _____ or No ✓
Has the measuring device been installed? Yes _____ or No _____
8. Fee Enclosed: \$ 50 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: Jonna Olscamp Telephone Number: 777-1209
Address: 513 S. Idaho Rd (PR)
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: _____

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-9125

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Northern** Regional Office of the department in Coeur d'Alene (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

RE: Permit No. 95-9125

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

MICROFILMED
OCT 26 2003

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-5452.

Sincerely,

Sharla Curtis

Senior Water Resource Agent

EXPLANATORY INFORMATION TO ACCOMPANY A PRELIMINARY ORDER

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the Department of Water Resources (Department) pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after a) the service date of a preliminary order, b) the service date of a denial of a petition for reconsideration from this preliminary order, or c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: October 17, 2002
To: Water Right File 95-9125
From: dgibson
Re: Permit Review

During permit review it was determined that the applicant and Fish & Game would have an opportunity to agree on the diversion rate for this permit. A letter was sent to the applicant and a copy to F&G dated Sept. 10, 2002 which asked the applicant to contact F&G to discuss their concerns. The letter requested a written response within 30-days or the department would issue this permit with a 0.03 cfs diversion rate. As of this date, no written response has been received by the applicant or by F&G. Therefore, the permit will be issued at the rate of diversion of 0.03 cfs which is appropriate for irrigation of 1.5 acres.

Comment Report

95-9125

1. dball 5/1/2002 3:14:00 PM Comment Letter Notes

Comment:

WHO: IDF&G

RESPONSE: Conditional Recommendation

DATE RECEIVED: 4/16/2002

Request is for twice normal appropriation for irrigation of specified acreage. Summer flows in Spokane River below PF Dam are already low enough to cause impacts to Idaho fisheries during warm, dry years. We would like to ensure that every measure is taken to protect Spokane River flows from additional adverse impacts.

We recommend this be approved with allocation of only 0.3 cfs for this applicant, consistent with the normal water appropriation for acreage to be irrigated. We contend that it is up to applicant to select a more efficient delivery/irrigation system or modify sprinkler system they intend to use so it will operate within normal allocation for acreage to be irrigated.

Re: Application for permit no. 95-9125

Dear Mr. And Mrs. Olscamp:

During my review of the above-referenced application, I found a letter from the Idaho Fish & Game (IF&G) recommending that the Department of Water Resources approve your application with a smaller diversion rate than you had applied for. For your information, I am enclosing a copy of that letter from IF&G, dated April 10, 2002. In that letter IF&G recommended a maximum diversion rate of 0.03 cfs, because of the impact of low summer flows on fish populations in the Spokane River. Under Rule 45.01.e.ii (IDAPA 37.03.08.45.01.e.ii) IDWR must consider the impacts a proposed water use will have on fish and wildlife resources. My letter is requesting your response to IF&G's concerns. If you do have questions about IF&G's recommendation I suggest you contact them at (208)769-1414 in Coeur d'Alene.

If I do not hear from you within **30-days** from the date of this letter, I will assume IF&G's recommendation is acceptable to you, and IDWR will issue this permit in the amount of 0.03 cfs. Please address your response to me at the above-address or contact me at (208)327-7953.

Sincerely,

Deborah J. Gibson

RE: Applications for Permits No. 95-9124, 95-9125, 96-9094

Dear LEGAL NOTICE DEPARTMENT:

Enclosed you will find a legal notice which we wish to have published in your newspaper on the dates indicated (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 05/06/2002. Your cooperation is appreciated.

Sincerely,

Dianne Ball
Administrative Assistant

RECEIVED
APR 16 2
IDWR/NORTH

April 10, 2002

Mr. Robert Haynes
Idaho Department of Water Resources
Northern Region, Suite # 210
1910 Northwest Boulevard
Coeur d'Alene, ID 83814

Dear Mr. Haynes:

REFERENCE: WATER RIGHT APPLICATION # 95-9125 OLSCAMP

We have reviewed the above-named water right application. The application is to withdraw 0.06 cfs from the Spokane River for irrigation of 1.5 acres.

The request is for twice the normal appropriation for irrigation of the specified acreage. The applicant states that they have requested this additional appropriation to "accommodate sprinkler system installation rate demands." Summer flows in the Spokane River below Post Falls Dam are already low enough to cause impacts to Idaho fisheries during warm, dry years. We would like to ensure that every measure is taken to protect Spokane River flows from additional adverse impacts.

Although the requested appropriation is relatively small, and the potential savings even smaller, it is our opinion that all saved water is valuable and that it is incumbent on the state to take every opportunity to protect the public water resources of the state for increasing future needs and demands, as well as for fish and wildlife. Therefore, we recommend that you approve an allocation of only 0.3 cfs for this applicant, consistent with the normal water appropriation for the acreage to be irrigated. We contend that it is up to the applicant to select a more efficient delivery/irrigation system or to modify the sprinkler system they intend to use so that it will operate within the normal allocation for the acreage to be irrigated.

The applicant should obtain an encroachment permit from the Department of Lands before installing water lines or submersible pumps in state waters.

Thank you for the opportunity to comment.

Sincerely,

Greg Tourtlotte
Regional Supervisor

RE: Application for Permit No 95-9125

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Coeur d'Alene Press on April 18 and 25, 1992. Submittal of protests to this application will be allowed for a period ending ten days after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved. A typical processing time for an unprotested application is about eight to twelve weeks.

Please feel free to contact this office if you have any questions.

Sincerely,

Allen Beardslee
Senior Water Resource Agent
