Department of Water Resources
Water Right License

WATER RIGHT NO. 95-09065

Priority: January 11, 2001

Maximum Diversion Rate: 0.07 CFS

It is hereby certified that RICHARD S MEYER

3813 E 80TH ST

TACOMA WA 98443

has complied with the terms and

conditions of the permit, issued pursuant to Application for Permit dated January 11, 2001; and has submitted Proof of Beneficial Use on September 24, 2001. An examination indicates that the works have a diversion capacity of 0.10 cfs of water from:

SOURCE

COEUR D ALENE LAKE

Tributary: SPOKANE RIVER

and a water right has been established as follows:

BENEFICIAL USE

IRRIGATION

PERIOD OF USE

03/15 to 11/15

DIVERSION RATE

0.07 CFS

LOCATION OF POINT(S) OF DIVERSION:

COEUR D ALENE LAKE L2 (NW¼NW¼) Sec. 23, Twp 48N, Rge 04W, B.M. KOOTENAI County

PLACE OF USE: IRRIGATION

Total Acres: 1

CONDITIONS OF APPROVAL

1. Rights 95-9050 and 95-9065 when combined shall not exceed a total annual maximum diversion volume of 3.0 af at the field headgate, and the irrigation of 1 acre.
2. This right when combined with all other rights shall provide no more than 3.0 afa per acre for irrigation of the lands above.
3. This right when combined with all other rights shall provide no more than 0.06 af per day at the field headgate for irrigation of the lands above.
4. Right 95-9050 is also diverted through the point of diversion described above.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. The water right confirmed by this license is subject to all prior water rights and shall be used in accordance with Idaho law and applicable rules of the Department of Water Resources.

Signed and sealed this 27TH day of NOVEMBER, 2002.

Department of Water Resources

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. 95-9065 Telephone No. 253 539 1686
2. Name of Permit Holder(s): Richard Meyer
3. Mailing Address: 3813 East 80th St,
City Tacoma State WA Zip 98443
4. Source of Water: Coeur d'Alene Lake If GROUNDWATER (well), Date Drilled: mo. _____ / yr. _____
Well Driller: _____ Drilling Permit Number: _____
5. Use(s) (as authorized by the water right permit):
Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 1 Other: _____
6. Total rate of diversion and/or volume for which proof is submitted: 0.10 cfs OR _____ acre-feet
7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)
Measuring Device: Is a measuring device required? Yes _____ or No X
Has the measuring device been installed? Yes _____ or No X
8. Fee Enclosed: \$ 50.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)
9. Person to contact to accompany the Department representative during field examination of the water system.
Name: Richard Meyer Telephone Number: 253-539-1686
Address: 3813 East 80th St, Tacoma, WA 98443 (or 208 689-3916 at Coeur d'Alene Lake)
10. The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.

Signature of permit holder: _____

Total number of acres to be irrigated 1

10. Describe any other water rights used for the same purposes as described above. None

11. a. Who owns the property at the point of diversion? Lake Coeur d'Alene - State of Idaho IDL
- b. Who owns the land to be irrigated or place of use? Self - Richard Meyer
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing:

12. Remarks: This water will be used to irrigate about 200 fruit trees and several raspberry patches. Although the pump will deliver 40 gpm given the pipe diameter, distance and rise, it will be on a timer to be run several hours a day, several days a week when needed (primarily in July and August).

13. **MAP OF PROPOSED PROJECT REQUIRED** - Attach an 8½"x11" map clearly identifying the proposed point of diversion, place of use, section #, township & range. (A photocopy of a USGS 7.5 minute topographic quadrangle map is preferred.)

BE IT KNOWN that the undersigned hereby makes this application for permit to appropriate the public waters of the State of Idaho as herein set forth.

Signature of Applicant (and title, if applicable)

RE: License No. 95-9065 - Issuance of License

Dear Water Right Holder(s):

The Department of Water Resources has issued the enclosed Water Right License confirming that a water right has been established in accordance with your permit. Please be sure to thoroughly review the conditions of approval and remarks listed on your license.

The license is a PRELIMINARY ORDER issued by the Department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

for Shelley W. Keen

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Re: Rate of Diversion

The permit was issued for application of 0.10 cfs/acre. In order to limit this right in case of change of ownership or system operation, we are applying a condition stating that the use should not exceed 0.06 af per day (0.03 cfs (the standard maximum rate/acre for up to 5 acres) X 1 acre X 1.9835 = 0.06 af)).

Re: System Capacity to be Licensed

As a follow-up to all of the correspondence in this file between June and August of this year, Wayne Baldwin visited Mr. Meyer's property recently while he was doing another exam close by. Wayne then called me to let me know his findings.

Wayne did find all 15 sprinkler heads and it appeared to him that they had been there and used at least a year or two. He couldn't say for sure they were all running when he made his initial visit but he also couldn't say for sure that they weren't. He also confirmed the statement made by Mr. Meyer in a couple of his letters that the "calculation" (theoretical) for capacity is between .08 and .10 cfs. Based on this information, Wayne agreed that the right holder should be given the benefit of full capacity by issuing the license for the remaining 0.07 cfs.

Permit # 95-9065 (0.1 CFS)

Dear Ms. Curtis:

Several months ago I received a call from Mr. Baldwin, water system inspector in Coeur d'Alene. He told me that he was going to re-inspect for system and count the Rainbird sprinklers (I have 13 operating and one 50' soaker, but can operate 15 Rainbird sprinklers). Did you receive an update from his re-inspection?

Best wishes,

Permit # 95-9065 (0.1 CFS)

Dear Ms. Curtis:

I received your letter of August 13th. I believe that Mr. Baldwin has mixed my system up with someone else's since I have no "misters" on my system just Rainbird sprinklers (13 to 15) and one 50' soaker. As you suggest, I will chat with Mr. Baldwin and, if he wishes, he can come out and inspect my system again.

Best wishes,

Permit # 95-9065

Dear Mr. Baldwin:

You might recall that you came out and inspected my irrigation system earlier this summer. At the time I had 13 Rainbird sprinklers going and one 50' soaker. I draw a map of the system for you and it is capable of having 15 Rainbirds running at one time. You measured the output of one rainbird sprinkler and calculated the output of the system at 0.09 to 0.1 cfs; I had 0.1 cfs on my permit application. When the final report got to Boise, my system was listed with 5 Rainbird sprinklers and rated at 0.03 cfs probably a typo. If you wish to re-inspect my system, I would be pleased to have you come out again. I can put the additional 2 Rainbird sprinklers on the system so we have all 15 going at once. I would like to get this system rated at its operating conditions, which is about 0.1 cfs. Please let me know what you would like to do. I can be reached at 253-539-0266 or 253-202-6686 (cell) or 253-539-1686 or, on weekends, 208-689-3916. If you wish, I can stop by your office in Coeur d' Alene just about anytime with advanced scheduling.

Best regards,

Richard Meyer

TACOMA WA 98443

Re: Permit No. 95-9065 and License 95-9050

Dear Dr. Meyer:

I received your hand-drawn diagram and the invoices from the pump and irrigation system you are using for irrigation. After I received this documentation, I spoke with Wayne Baldwin on the phone.

Wayne recalled seeing a diagram of the sprinkler system, but did not know why it wasn't attached to the field report. He explained to me that there are five (5) large sprinkler heads and the remaining ten (10) heads are "mistlers" and that he measured the output of the 5 large heads because you had told him the mistlers aren't run at the same time as the large heads since they take the bulk of the water.

At this point, I believe it would be best for you and Wayne to sort the discrepancies out and by copy of this letter to Wayne, I will request that he contact you personally to discuss these issues and then for him to provide his final recommendations to me in writing. No further action will be taken by this office until the written documentation is received here.

If you have any questions, please give me a call.

Sincerely,

Sharla Curtis
Senior Water Resource Agent.

From: Sharla

Date: July 16, 2002

Re: Telecon

On 7/2/2002, Mr. Meyer called in response to Shelley's letter. He told me that 15 sprinklers are used instead of the 5 recommended by the examiner. He said he had given a hand-drawn diagram to Wayne when he was out there for the examination and had also given him copies of the pump/sprinklers invoices. I told him this information had not been attached to the field report. Mr. Meyer sent copies to me a few days later.

On this date I spoke with Wayne Baldwin at Northern Region concerning the correspondence from Mr. Meyer. Wayne told me that there were 5 large sprinkler heads used and the other 10 are misters. The right holder had told him that the misters aren't run at the same time as the 5 large heads because the 5 take the bulk of the water. Wayne offered to drop by the property when he is in the area again and/or discuss this with Mr. Meyer. I told him that I will send him a copy of my correspondence to Mr. Meyer and a copy of the information Mr. Meyer had sent to me. I feel that Wayne and Mr. Meyer need to discuss this matter together so that they both come to the same conclusion about the system that is being used.

Department of Water Resources

Ms. Shelley W. Keen
Water Rights Supervisor
State Of Idaho
Department of Water resources
1301 North Orchard Street
Boise, Idaho 83706

Dear Ms. Keen:

There appears to be a mistake on the amount of water granted on the Water Right License, which I received today. I requested 0.1 CFS on both of my permit applications (95-9050 and 95-9065) and the water inspector (Mr. Wayne Baldwin at 208-769-1450) measured the output of my system at 0.1 CFS to 0.09 CFS and recommended that they system be approved for 0.1 CFS. Mr. Baldwin should be able to help clarify this matter.

I don't know where the 0.03 CFS came from since it was not on any of the submissions by me. Please let me know what I need to do to get this situation rectified.

Best wishes,

A handwritten signature in black ink, appearing to read "Richard Meyer", is written over a circular stamp. The signature is fluid and cursive.

1910 Northwest Blvd.
Coeur d' Alene, Idaho 83814-2615
Attention: Mr. Allen Beardslee

Dear Mr. Beardslee:

I received approval for a water permit (see enclosed), *actually, I put 4.1 cfs* but I made a mistake on the conversion of 40 gpm to cfs (I evidently put 0.03 when 40 gpm translates to about 0.1 cfs). I called Shelley Keen in Boise and pointed out my mistake; she advised me to re-submit an application to you and mention "the need to pickup additional water for the system designed". I intend to have this system on a timer to irrigate about 200 fruit trees (dwarf and semi-dwarf) and several raspberry patches for several hours a day every two or three days when needed (primarily in July and August).

I have enclosed a new water permit application and \$100 as directed by Ms. Keen.

Please let me know if there is anything else I need to do.

Best regards,

Richard Meyer

RE: Water Appropriation Permit 95-9065

Dear Mr. Meyer:

The Idaho Department of Water Resources (IDWR) recently mailed you Water Right License 95-9050 recognizing that you have established a right to divert 0.03 cfs (13.5 gpm) from Lake Coeur D'Alene for the irrigation of one acre.

IDWR is also reviewing Permit 95-9065 to determine if a license should be issued for it, too. Permit 95-9065 was to you issued for a larger diversion rate - 0.10 cfs - from Lake Coeur D'Alene for the irrigation of the same acre of land covered by Water Right 95-9050. The field examiner who visited your property to verify the water use under your two permits reported that you have five sprinklers, each producing five gallons in about 95 seconds, or 3.1 gpm. The total for all five sprinklers is 15.5 gpm, or 0.034 cfs. When issuing water rights license, IDWR rounds to the nearest hundredth of a cfs, or 0.03 cfs in this case.

Because you have already submitted proof of beneficial use for Permit 95-9065, ending the authorized development period, the permit cannot be retained to cover future resource development. If 0.03 cfs is the maximum amount of water you have diverted and put to beneficial use for irrigation purposes on your property, then Water Right License 95-9050 is sufficient to cover your water use, and Permit 95-9065 can be relinquished or voided. I have enclosed a relinquishment form for you.

If, however, you believe that you are actually diverting and using more than 0.03 cfs for the irrigation of your acre of land, please submit documentation supporting your conclusion to me within 30 days. If I have not heard from you within 30 days, I will recommend that Permit 95-9065 be voided by IDWR.

If you have any questions, please call me at 208-327-7946, or email me at skeen@idwr.state.id.us.

Sincerely,

Shelley Walter Keen
Water Rights Supervisor

Re: Permit Nos. 95-9050 and 95-9065

Dear Dr. Meyer:

I am responding to a letter you recently sent to Deborah Gibson of this office and I will hopefully clear up your confusion as to why you have been asked for two proof of beneficial use forms and filing fees.

In June of last year, you filed application 95-9050 for the irrigation of one (1) acre from Coeur d'Alene Lake and the rate of diversion that was permitted was 0.03 cfs (approximately 13.5 gpm). In the remarks section of that application you had mentioned that the system actually produces 40 gpm. After you received the permit approval, you contacted us about the low rate of diversion that had been approved. As a result, we suggested that you file a second application to pick up the additional rate of diversion.

The second application, 95-9065, actually identified the entire 40 gallons per minute (0.10 cfs) and so we placed a condition on its approval that limited the two permits to a total combined rate of diversion of 0.10 cfs. But because the second permit can cover your entire use, I would suggest that you allow permit 95-9050 to lapse and simply retain the latter permit for the total 0.10 cfs. You have already filed the proof of beneficial use for that permit and so the department can conduct an examination and issue a final license.

I am sorry for the confusion the two filings have caused and I hope my explanation has helped to clear this up for you. If you have any questions, please do not hesitate to call Deborah or me.

Sincerely,

Sharla Curtis
Sr. Water Resource Agent

Boise, Idaho 83720-0098

Dear Ms. Gibson:

I am a bit confused. I received a registered letter (November 5, 2001 copy enclosed) from you today requesting a second form for Beneficial Use to be filled out. However, I received a letter from you on October 16th, acknowledging receiving my Proof of Beneficial Use form. I believe that the problem arose when I first applied for a permit this past year, your office pulled up a request I made 10 years ago and used old water use volumes. To correct the mistake, I had to resubmit another water permit request, which was again approved. It could be that you have issued tow separate permit numbers for the same request.

Please let me know if there is anything that I need to do.

Best regards,

Richard Meyer

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-09065

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to contact you to schedule a field examination to determine and confirm the use being made of the water, and that it meets the permitted beneficial use. I will forward a copy of your letter dated September 17, 2001 to the regional office so they are aware of your scheduling difficulties. Additionally, I am sure the regional office will not be scheduling the exam for this year.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions, please contact the **Northern** Regional Office of the department in Coeur d'Alene at (208) 769-1450.

Sincerely,

Deborah J. Gibson
Administrative Assistant
Water Allocation Bureau

Dear Shelley Keen:

SEP 24 2001

Department of Water Resources

The irrigation system is installed and ready for inspection. I can be available the week of October 2nd for an inspection - preferably on Friday, October 6th,

I would like to drain the system after that date for the winter. Please leave a message at 253-539-1686 for an inspection time. I will be traveling for work between September 24th to September 29th,

I will need to meet the inspector at the Powderhorn Bay locked gate ~~to~~ open it for him (located at mile marker 73). MICROFILMED

RE: Permit No. 95-9065

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

Enclosed is a form entitled 'Instructions for Proof of Beneficial Use.' Please read the instructions carefully since you must take further action to develop this permit into a licensed water right. Also enclosed is a form entitled 'Proof of Beneficial Use.' If your project is already completed, you should complete and submit this form immediately.

Please note that a separate stream channel alteration permit must be obtained from the Department prior to any activity in the stream channel other than construction or maintenance of the diversion structure for your water right(s). Applications for stream channel alteration permits must be filed a least sixty days prior to the commencement of work in the stream.

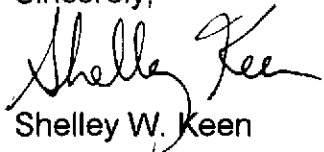

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: perweek1.txt - Water Rights requiring a response from you.

perweek1.txt.url

<http://www.idwr.state.id.us/info/water/rights/perweek1.txt>

Greetings, Mark,

Either the link above or the attachment below will take you to our IDWR Home Page on the internet, where you will find four (4) new water rights for which we need comments from you, because they involve surface water. They are as follows:

| | |
|---------|---------|
| 96-9064 | FRATES |
| 95-9065 | MEYER |
| 96-9066 | LIND |
| 96-9065 | BURGARD |

There is a water right for LIND with a 98 number right at the top of the list - this one is to be ignored. It was originally issued with a 98 number and that is incorrect. The correct one is farther down the list with the 96-9066 number. Sorry for any confusion that this might cause.

The last date for protest to be received in our office on these rights is April 23, 2001. We would greatly appreciate your response to us prior to that date. An e-mail response is perfectly acceptable, unless you find it necessary to file a formal protest. If that is the case, we need it in writing together with a \$25 fee for each right on which a protest may need to be entered.

thank you very much for your prompt response. Should you have ANY questions, please e-mail me or call me at 769-1450

May your life be littered with love and blessings. Dianne Ball, IDWR, Cd'A

Re: Water Appropriation Application No. 95-9065

Dear Mr. Meyer:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application. Enclosed for your file is Receipt Number N014099.

Your appropriation application is currently being prepared for advertising in the local county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. State office personnel will then conduct a complete review, and you will be notified by mail of the outcome. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. All protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

You will receive your approved Application for Permit and instructions on filing the Proof of Beneficial Use from our State office in Boise.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent

RECEIVED
JAN 11 2001
IDWR/North
Receipt #
No. 14099

Dear Mr. Beardslee:

I received approval for a water permit (see enclosed), but I made a mistake on the conversion of 40 gpm to cfs (I evidently put 0.03 when 40 gpm translates to about 0.1 cfs). I called Shelley Keen in Boise and pointed out my mistake; she advised me to re-submit an application to you and mention "the need to pickup additional water for the system designed". I intend to have this system on a timer to irrigate about 200 fruit trees (dwarf and semi-dwarf) and several raspberry patches for several hours a day every two or three days when needed (primarily in July and August).

I have enclosed a new water permit application and \$100 as directed by Ms. Keen.

Please let me know if there is anything else I need to do.

Best regards,

Richard Meyer
