CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of

Idaho No. _____, and said application is hereby _____

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

_____, 19____

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

MEMORANDUM

TO: File 95-08818

FROM: Sharla

DATE: June 21, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08818 are based on a phone conversation on this date with Jerry Welch of the Beauty Bay Homeowners Assn. He told me that the 1½ hp pump has to lift water approximately 120 feet from the lake.

The proof of beneficial use statement indicated a rate of diversion of 0.04 cfs. Mr. Welch confirmed that 0.04 is what the pump is rated at, and is an accurate description of the capacity of the diversion system. The rate of diversion will be licensed for the 0.04 cfs. There is another permit, No. 95-08884, for the remaining homes which are connected to this system. Mr. Welch informed me that Northern Region personnel had contacted him a few days ago and told him there would be no further examinations and that they would be forwarding the paperwork to this office for license review as well. A condition will need to be placed on the license issued for that permit, limiting the rate of diversion under both rights to 0.04 cfs.

H. RECOMMENDATIONS

| Beneficial Use | Period of Use | Rate of Div | Annual Vol |
|----------------|---------------|-------------|------------|
| Irrigation | 3/15 - 11/15 | 0.04 cfs | 6.0 afa |
| Domestic | 1/1 - 12/31 | 0.04 cfs | 2.4 afa |

Finally, conditions were placed on the permit limiting the domestic use to 13,000 gpd/dwelling and authorizing irrigation of ½ acre within each lot with a domestic dwelling. The irrigation use component is for the lots (each approximately ½ acre). Licensing conditions will be appropriately modified to separate the irrigation of any lawn, garden, etc. from the domestic component.

FROM: Cindy Zimmerman
SUBJECT: Application No. 95-08818

=====

During the review of the above referenced application, I noted that the place(s) of use were incorrectly advertised. The place(s) of use were advertised as NENW & NWNW, S11, T49N, R03W; however, the place(s) of use are located in NENW & NWNW, S12, T49N, R03W.

In addition, I noted that this application requires but does not include the names and addresses of the corporate officers of Beauty Bay Homeowner's Association.

I also have a question as to why the applicant is applying for 5 homes on 7 lots scattered among a subdivision of 79 lots, why not apply for the all 79 lots within Beauty Bay Estates First Addition?

Gentlemen:

Re: Water Appropriation Application No. 95-8818.

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests. Normal processing time is approximately 3 to 4 months, if the application is not protested.

If the application is not protested, it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
