E. NARRATIVE/REMARKS/COMMENTS

water is diverted from Rattlesnake Creek by a 75 H.P. pump into a 3" line. A two inch line splits off of the mainline to two ponds. The pond dimensions are 6'x10'x18' & 20'x8'x5'. The other pond is fed water from split from mainline. Various sizes of pipes and sprinklers make up the irrigation system.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-08782

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the department's NORTHERN Regional Office in Coeur d'Alene at (208)769-1450.

Sincerely,

JULIE L. YARBROUGH

RE: PERMIT NO. 95-08782

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before April 1, 1998.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

Dear Mr. Parsons:

We have received and reviewed your Project Plan for Aesthetic System, as per Conditions/Remarks Number 7, on the Permit.

Because of the need for regulation of water every summer for senior water right holders on Rathdrum Creek, we can approve your project plan if the diversion of water is done in a "non-consumptive" manor.

We feel that it is advisable for you to install a liner in your pond to reduce seepage.

The pond could be filled during high water flows in Rathdrum Creek, however, during times of regulation, the amount of water diverted into your system, must be returned to the stream. During low flow conditions, it may be possible to circulate water from the pond through your aesthetic system, without affecting Rathdrum Creek.

Your plan has been accepted and approved with the above considerations.

As you have indicated, we will receive your Proof of Beneficial Use after the development of the system. If this does not occur prior to next spring, we will notify you by mail prior to the April 1, 1998, deadline.

Please feel free to contact me at this office, if I can be of further assistance.

Sincerely,

Allen Beardslee

Project Plan for Aesthetic System

The proposed aesthetic project plan will utilize water in the area as indicated in the attached sketch and property map.

A rock scape, waterfall, and pond will be located next to the 4" diameter irrigation outlet will utilize a ¾" diameter pipe to supply the system. The pond will have an outlet/overflow stream terminating west of the pond.

A Rockscape located approximately 107' east of the creek will have a ¾" diameter pipe to supply water in this area. Water will overflow a pool and enter the ground.

A Pond area is located 20' east of the creek will be supplied by a 2" gate valve and yard hydrant. Development of this pond will commence when this plan is approved, as water is necessary for soil compaction. Preliminary excavation of this area is complete.

The amount of water used for the aesthetic system is measured by monitoring the water meter located adjacent to the pump.

Department of Water Resources

DEAR BOB,

ENCLOSED ARE PHOTOGRAPHS OF WORK PERFORMED AND PROGRESS MADE THRU 10/31/94 WITH REGARDS TO WATER APPROPRIATION # 95-08782 FROM RATHDRUM CREEK.

LAST MONTH I EXCAVATED, BUMPED AND BACKFILLED THE SYSTEM SHOWN IN THE PHOTOGRAPHS. THIS SYSTEM INCLUDES AN 18" DIAMETER SUMP 14' DEEP, 3" DIAMETER BUMPING INCLUDING A "SAND BOX", SCREEN AND LID IN THE CREEK; AND A 3" BRASS GATE VALVE AND VALVE CAN ASSEMBLY. THE VALVE CAN LID INCORPORATES A LOCKABLE DEVICE AS REQUESTED ON THE APPROPRIATION CONDITIONS/REMARKS. I ALSO LOCKED-OUT THE 18" Ø SUMP AND PLACED A TEST PLUG IN THE 3" Ø INLET IN THE STREAM.

I FABRICATED A T HANDLE FOR CONTROLLING THE 3" VALVE. I CAN STORE IT NEAR THE VALVE OR FABRICATE A SECOND ONE TO PRESENT TO THE WATERMASTER; WHICHEVER YOU SEE FIT.

I HAVE BEEN WORKING WITH A DESIGN ENGINEER WITH R.C. WORST CO. ON PUMP AND BUMPING SIZE TO DISPLACE WATER AT THE APPROVED RATE.

MY FUTURE PLANS INCLUDE EXCAVATING AND PLACING PIPE FROM THE SUMP TO A HOLDING POND ON THE HIGH POINT OF MY PROPERTY TOWARDS THE EAST. THIS POND WILL SERVE AS FIRE PROTECTION AS WELL AS IRRIGATION FOR 4 ACRES OF TREES.

I LOOK FORWARD TO ANY COMMENTS OR SUGGESTIONS YOU MAY HAVE.

RECEIVED

MAR 27 1995

Department of Water Resources

Dear Ms. Yarbrough,

This letter is in response to your letter dated January 31, 1995. I recently returned from work obligations overseas in Saipan, Thailand, and Japan. Thank you for the "Request for Extension of Time" form along with the instructions.

1) Work Completed

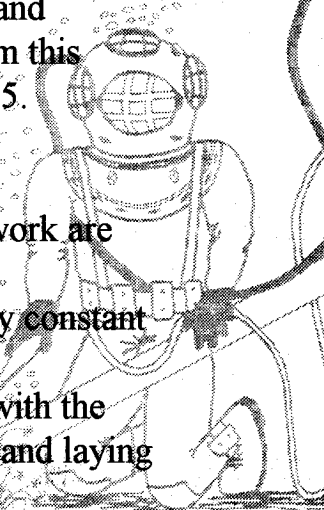

I have worked on the planning and development stages since my application was approved by your office on March 15, 1993. The appropriation of water from Rathdrum Creek parallel the objectives I have for the 12 1/2 acres of property I own. These objectives are to provide irrigation to improve the quality of timber in the near future, provide irrigation for crops in the distant future, protect against fire, and to enhance aesthetic values. Please refer to the enclosed letter I wrote to Mr. Bob Haines with the Department of Water Resources/Northern Region on November 10, 1994 with regards to work completed to date. The cost for engineering consultation, material, and equipment rental to this point is \$2,870. The cost of labor to perform this work not including my own is \$2375 bringing the total cost to \$5245.

2) Reasons for Incompletion

The reason I have been unable to complete the remainder of the work are threefold.

First, work obligations overseas and elsewhere have precluded my constant residence and the onsite ability to plan and work on the project.

Second, other tasks are considered necessary before proceeding with the project. These include clearing brush and trees to allow excavation and laying

MAR 18 1995

pipe, determining exactly where to build a house (which will determine where to excavate the pond), and which area of the property is best suited for future planting of crops.

Third, the work season is limited due to weather. Between my work obligations and the timing with the winter season the implementation of this project has been frustrating. In 1993 I had work obligations in Kodiak, Alaska from November thru February; then in Saipan from June until September. In 1994 I had obligations until September. I worked on the project right up to the time I left for Saipan in early November.

3) Request for Extension

I believe that I have been diligent in trying to complete this project in a timely manner but have been precluded from doing so because of work constraints and obligations. Accordingly, I am requesting an extension to complete the improvements in this project until October 25, 1997. This will allow me ample time to make plans, complete other necessary tasks in an orderly manner, and provide the time necessary to complete the system and have it ready for inspection.

If you have a need for further information in this matter please feel free to contact me. Your assistance in this matter will be appreciated.

Respectfully Yours,

Calvin R. Parsons

RE: PERMIT NO. 95-08782

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control on your diversion.

MEMORANDUM

To: File 95-08782

From: Bob Haynes

Date: February 23, 1993

Subject: Conditions of Approval

I have discussed the situation of water availability with Mr. Parsons. I indicated to him that there probably would be times every year when water would not be available for him to use for irrigation. I also indicated that while an aesthetic use of water could be non-consumptive, it might not be and that if it was not truly non-consumptive there would not be water for it. I suggested that a way to deal with the problem would be for him to work with the water master and us before actually installing his system. His letter of Jan. 25 is in response to that conversation. I suggest that we condition the approval of his application to require our approval of his aesthetic system before it is constructed.!

DEAR BOB,

THANK YOU FOR TAKING THE TIME TO SPEAK WITH ME LAST TUESDAY MORNING.

THIS LETTER IS DIRECTED IN RESPONSE TO OUR CONVERSATION REGARDING MY INTENDED USE OF WATER FROM RATHDRUM CREEK AS REQUESTED.

I AM PRESENTLY ENGAGED IN CLEARING BRUSH AND THINNING TREES ON MY PROPERTY ADJACENT TO THE CREEK WITH THOUGHTS OF BUILDING A HOME IN THE FUTURE. USE OF WATER FROM THE CREEK WILL BE BENEFICIAL TO THE VICINITY. PLANS MAY ALSO INCLUDE PLACING A SMALL WATERFALL TO COMPLEMENT, BALANCE, AND FULFILL THE SURROUNDINGS.

I REALIZE THE CREEK BED AND BANKS ARE INHERENTLY SUSCEPTABLE TO PERMEANTATION OR LEAKAGE IF DISTURBED. MY PLANS WILL INCLUDE THE INSURANCE OF BED AND BANK INTEGRITY SO ANY USE WILL NOT ADVERSELY AFFECT STREAM FLOW. I WILL NOT PROCEED WITH ANY WATER RELATED PROJECTS ON THE CREEK UNTIL MY PLANS HAVE MET WITH APPROVAL WITH MUTUAL NEIGHBORS AND REPRESENTATIVES THAT WOULD BE AFFECTED BY USAGE I MAY HAVE.

Re: Water Appropriation Application No. 95-8782.

Dear Mr. Parsons:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application for Permit to appropriate the Public Waters of the State of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Senior Water Resources Agent
