BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF PERMIT NO. _____)
95-8768 IN THE NAME OF KEN WAY)
_____)

**PRELIMINARY ORDER
REINSTATING PERMIT**

WHEREAS, the Department issued the above-captioned permit with the condition that proof of construction of works and application of water to beneficial use (proof of beneficial use) be submitted to the Department on or before March 1, 1994; and,

WHEREAS, the Department notified the permit holder on December 31, 1993, by certified mail, that proof of beneficial use was due and instructed the permit holder of the steps to be taken to submit the proof of beneficial use; and,

WHEREAS, on March 1, 1994 the permit lapsed, since the permit holder had not submitted an acceptable proof of beneficial use or request for extension of time to the Department; and,

WHEREAS, Section 42-218a, *Idaho Code*, provides that where acceptable proof of beneficial use is submitted at least 60 days after notice of lapsing, the Department may reinstate a permit upon finding that beneficial use had occurred during the authorized development period of the permit and upon a showing of reasonable cause for the late filing; and,

WHEREAS, sufficient documentation was provided indicating that domestic use for 76 homes was established during the authorized development period of the permit and a reasonable showing why the permit should be reinstated was submitted on March 31, 2003; and,

WHEREAS, documentation conveying ownership of the permit to City of Post Falls was properly submitted;

IT IS, THEREFORE, HEREBY ORDERED that Permit No. 95-8768 is **REINSTATED** in the name of City of Post Falls with an advance in priority to March 31, 2003.

DATED this 1st day of April, 2003.

Permit To Appropriate Water

NO. 95-08768

Proposed Priority: July 24, 1992 Maximum Diversion Rate: 3.75 CFS
This is to certify, that KEN WAY

111 E KELSO DR
SPIRIT LAKE ID 83869

has applied for a permit to appropriate water from: GROUNDWATER
and a permit is APPROVED for development of water as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>
IRRIGATION	03/15 to 11/15	0.45 CFS
DOMESTIC	01/01 to 12/31	0.45 CFS
FIRE PROTECTION	01/01 to 12/31	3.30 CFS
	Totals	3.75 CFS

LOCATION OF POINT(S) OF DIVERSION:

NWNW, Sec. 8, Township 50N, Range 05W
KOOTENAI County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
50N	05W	8	NWNW	28		28

Total number of acres irrigated: 28

PLACE OF USE: DOMESTIC, same as IRRIGATION use

PLACE OF USE: FIRE PROTECTION, same as IRRIGATION use

CONDITIONS/REMARKS:

1. Proof of construction of works and application of water to beneficial use shall be submitted on or before March 1, 1994.
2. Subject to all prior water rights.
3. Prior to the diversion of water under this right a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
4. The rate of diversion of water for irrigation under this right and all other water rights on the same land shall not exceed 0.02 cubic feet per second for each acre of land.
5. Three points of diversion are located within NWNW, S08, T50N, R05W.
6. Domestic use is for 88 homes.

RE: Preliminary Order in the Matter of Permit 95-8768

Dear Interested Parties:

The accompanying order is a "**preliminary order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the department unless a party petitions for reconsideration within fourteen (14) days after issuance as described in the enclosed information sheet.

If you have any questions regarding this matter, please call me at 208-327-7940.

POST FALLS ID 83854**

Kari Lynn Townsend
Secretary

MICROFILMED

NOV 26 2003

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED
NOV 26 2003

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: April 1, 2003

To: Permit 95-8768

From: Jeff Peppersack

Re: Reinstatement of Permit

An affidavit received December 18, 2002 from Terry Werner, the City of Post Falls Utility Superintendent, indicates that the Majestic View Estates water system was conveyed from Ken Way (original permit holder) to the city in November of 1993 (department received an assignment of permit on March 31, 2003). The affidavit also indicates that 3 wells were developed for the system. The affidavit also indicates that the subdivision was built in two phases for single-family residential lots; 77 lots completed in 1992 (1 lot is the well site) and 12 lots completed in 1994.

The affidavit indicates that as-built drawings dated 7/31/92 and revised date 7/7/94 are provided to show beneficial use prior to March 1994. The drawings are actually construction plans with Record Drawing dated 7/7/94. The drawings confirm that the lots were stubbed in, and perhaps the pumping system was complete some time prior to 7/7/94 but the actual completion date is not confirmed. Since the subdivision was built in two phases, it is likely that phase 1 (76 lots stubbed in) was complete prior to the due date. Additional information submitted on March 31, 2003 does not confirm actual stub-in dates for the additional 12 lots.

The pumping system shown in the plan includes a pumping capacity of 210 gpm for well 1, 210 gpm for well 2 and 1300 gpm for well 3 (fire protection well) for a total of 3.84 cfs. The affidavit indicates a pump test was performed on wells 1 and 2 on December 4, 2002 and showed a discharge of 170 gpm for well 1 and 180 gpm for well 2. No test was performed for well 3. The affidavit indicates that the pumps installed in wells 1 and 2 are model 200L (pumps curves included), which match the models indicated on the Record Drawings. Information submitted on March 31, 2003 confirms the capacity of well 3.

The affidavit also indicates that weekly well logs are included. The well logs are not well documented, but appear to indicate that some limited pumping occurred (and therefore pumps must have been installed) prior to the proof due date of the permit.

The affidavit also indicates that well driller's reports are included. The reports indicate that the 3 wells were developed in 1992.

It appears that there is sufficient information to establish that 76 lots were stubbed in and 3 wells with pumps were developed prior to the proof due date. The actual installed

MICROFILMED

NOV 26 2003

capacity appears close to the permitted amount. Reinstatement will require advancing the priority date to March 31, 2003 (exam fee was not paid until March 31, 2003).

Unless additional evidence is shown, this permit should not be licensed for more than 76 homes (to include up to 1/2 acre per home site). ~~In addition, the permit does not authorize more than 1 well. Evidence was submitted showing development of three wells during the authorized development period, so a licensing amendment will be required to include all three wells.~~ There is also a request to change the use to municipal.

Permit allowed 3 wells

Record Drawings (March 1987)

Numeric Series 39

There is very often confusion regarding the differences between "record" and "as-built" drawings and the terms are often used synonymously. The OAA defines the terms as stated in the Canadian Handbook of Practice for Architects under the section "Commissioning and Post-Construction Stages"

"As-built drawings are those maintained by the Contractor as he constructs the project and upon which he documents the actual locations of the building components and changes to the original contract documents. These, or a copy of same, are turned over to the Architect at the completion of the project."

"Record drawings are those subsequently provided by the Architect to the Client. Most Client/Architect agreements require the Architect to provide reproducibles of the original documents revised to suit the as-built conditions. To summarize, the Architect takes the Contractor's as-builts, reviews them in detail with his/her own records for completeness, then either turns these over to the Client or transfers the information to a set of reproducibles, in both cases for the Client's permanent records."

The Canadian Standard Form of Agreement Between Client and Architect provides for the preparation of record drawings as an Additional Service under Article 2.4.18 which states:

"Preparing a set of reproducible record drawings showing significant changes in the Work made during construction based on marked-up prints, drawings, and other data furnished by the Contractor to the Architect. The Architect shall not be held responsible for the accuracy of the information provided by the Contractor."

Regardless of the form of agreement with the Client, the Architect should ensure that his/her responsibilities in preparing record drawings are limited as per the wording of article 2.4.18 and that the following disclaimer is placed on the drawings so that it will not be taken as representing that this is the way the building was in fact built by the Contractor:

"The revisions to these contract documents reflecting the significant change in the Work made during construction are based on data furnished by the Contractor to the Architect. The Architect shall not be held responsible for the accuracy of the information provided by the Contractor."

When the Architect is not retained and does not carry out General Review he should not prepare record drawings, as he/she is not in a position to be aware of any of the changes during construction.

An additional aspect in relation to record drawings arises out of section 26(3) (f) and (9) of the Condominium Act, R.S.O. 1980, c.84, which refers to:

"(f) the as-built architectural, structural, engineering, mechanical, electrical and plumbing plans;

(g) the original specifications including thereon all material changes;"

being required to be turned over to the elected Board of the Condominium Corporation within a prescribed period of time.

In relation to the requirement of (f) above, it is important that the Architect, by preparing a record drawing, not be taken as representing that this is the way the building was in fact built by the Contractor. In the case of the Architect who does not perform General Review, he/she should not issue a record drawing as he/she is not in a position even to say that the construction is in general conformity with his/her design. Where the Architect has carried out the General Review of the construction, there should be on the record drawing a clear statement of what it represents and what it does not. In no circumstance should the Architect be issuing a record structural, electrical or mechanical drawing or any other drawing that has not been prepared under his/her personal supervision and direction. The following disclaimer should be added to his/her own drawings:

"The revisions to this record drawing reflecting the significant change in the Work made during construction are based on data furnished by the Contractor to the Architect. The Architect shall not be held responsible for the accuracy of the information provided by the Contractor."

"The issue of this record drawing is a representation by the Architect that the construction, enlargement or alteration of the building is in general as opposed to precise conformity with the design prepared and provided by the Architect, but is not a representation that the construction, enlargement or alteration of the building is in conformity with a design that has been prepared or provided by others."

With regard to (g), there is no requirement to provide "as-built specifications". Only the original specifications on which all changes have been indicated must be supplied. In the case where the Architect is not the prime consultant, he/she should not deliver any specifications that are not his/her own, and his/her own should indicate all the material changes to the original architectural specifications. If he/she has carried out the General Review of the construction, there should be a clear statement in a covering letter to the effect that he/she is not to be taken, by forwarding the architectural specifications, as representing that the building has been built in precise conformity with the specifications. Where the Architect has not conducted the General Review, he/she should make this clear in his/her letter by stating that the delivery of the specifications with the material changes thereon is not a representation that the specifications have been followed or complied with by the Contractor.

MICROFILMED

NOV 26 2003

Where the Architect is the prime consultant, he/she should collect all of the original specifications and material changes thereto from the various Consulting Engineers and others who have prepared them, together with a covering letter stating that all the material changes have been noted on the original specification. He/she should then forward them, together with his own up-to-date specifications, to the Client. There should be a clear and precise statement that the specifications show only the material changes made by the Architect and the Consulting Engineers as well as others, to their original specifications and are not to be taken as a representation that the building has been built according to the specifications. Where the Architect and Consulting Engineers have conducted General Review, to ascertain whether or not the construction is in general conformity with their designs, the covering letter should state that the forwarding of the specifications is not to be taken as a representation that the construction is in precise as opposed to general conformity with his/her own specifications and that there is no representation of any kind other than what the Consulting Engineers and others have themselves stated, that there has been conformity with the non-architectural specifications.

SUBJECT: REINSTATEMENT OF WATER RIGHT PERMIT #95-8768
MAJESTIC VIEW WATER SYSTEM

Dear Mr. Peppersack:

Your letter of February 12, 2003 requested additional information in regard to our request for reinstatement of Water Right Permit #95-8768.

The enclosed information is in response to the information you requested. The following information is enclosed:

1) Assignment of Permit

Mr. Kenneth L. Way signed the Assignment of Permit form on February 19, 2003. Also enclosed is \$25.00 for the filing fee.

2) Capacity for Well #3

We have enclosed the pump curve and pump information for this well. According to the information on the pump curve, the pump pumps 1,300 gpm at 310 TDH.

3) When lots were created:

Enclosed is an interoffice memo dated February 20, 2003, from City Engineer, Mr. Bill Melvin. The Preliminary Plat for this subdivision was approved by the Post Falls City Council on July 7, 1992 (minutes enclosed).

The first phase plat was recorded on April 1, 1993, for 23 lots (plat enclosed for Majestic View Estates).

2002 West Seltice Way • Post Falls ID 83854 • (208) 777-9857

MICROFILMED

NOV 26 2003

The second phase plat was recorded on June 29, 1993, for 53 lots (plat enclosed for Majestic View Estates, 1st Addition).

This shows 76 lots were created before the March 1, 1994 due date.

The last phase plat was recorded on July 8, 1994, for 13 lots (plat enclosed, Majestic View Estates, 2nd Addition).

This plat was recorded after the due date, but the Preliminary Plat approval of July 7, 1992, shows the intent to create 89 lots (one lot is the well location).

Enclosed is \$175.00 for the required permitted amount under Permit #95-8768.

If you have any questions, please contact me at 208-777-9857.

Sincerely,

Terry Werner
Utility Superintendent

INTEROFFICE MEMO

DATE: February 20, 2003

TO: Terry Werner, Utility Superintendent

FROM: Bill Melvin, City Engineer *BEM*

RE: Majestic View Estates

Terry, my search of the records for Majestic View Estates indicates the following:

Preliminary Plat approval by city council on July 7, 1992

Majestic View Estates (23 lots) was recorded on April 1, 1993

Majestic View Estates 1st Addition (53 lots) was recorded on June 29, 1993

Majestic View Estates 2nd Addition (13 lots) was recorded on July 8, 1994

I am providing you copies of the recorded plats and the documentation that I could find in the file indicating the date of preliminary plat approval. Please let me know if you need any further information, or if we can be of any further assistance with this.

NOV 26 2003

HAENG. MEMO.DOC

MAJESTIC VIEW ESTATES
FINAL PLAT

INFORMATION:

Mr. Ken Way has applied for final plat review for a portion of the 26 acre property recently annexed along S. Pleasant View Road.

The property is zoned single-family residential (R-1) and a total of 23 lots are proposed in this phase. The preliminary plat shows a total of 89 lots.

The property has moderate slopes (2% - 6%) along Pleasant View Road and east toward the Spokane River with steep to very steep slopes, (20% - 60%) along the river.

A shoreline conservation easement is proposed along the entire river frontage and is proposed to be a minimum of 30 feet wide at its narrowest point and 60 feet wide at the steepest portion of the river bank. There will be no disturbance allowed within this easement.

The engineer's review comments have been requested and comments are included.

The application is being reviewed in accordance with Idaho Code #50-13 (plats & vacations), and the City Municipal Code Title 17 (subdivisions). The comprehensive plan does not address this property.

BACKGROUND:

The City Council approved the preliminary plat on 7/7/92, with the following conditions;

1. Review comments shall be addressed prior to final plat review.
2. Soil & erosion control plans shall be submitted with construction plan review and prior to building permits on all lots abutting the Spokane River.

ACTION:

The Planning & Zoning Commission shall recommend approval as submitted, approval with conditions, or denial of the final plat. Findings and conclusions should be made. Staff will prepare findings and conclusions, based on actions set forth by the Commission, for review at the next regular meeting.

RE: Reinstatement of Water Right Permit No. 95-8768 – Majestic View Water System

Dear Mr. Werner:

The information you submitted on December 18, 2002 to show beneficial use for the Majestic View Water System has been forwarded to this office for processing. We have reviewed the information for completeness as required under Idaho law.

Section 42-218a, *Idaho Code*, requires in part:

...That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to clearly establish the extent of beneficial use made during the time authorized by the permit...

The affidavit and supporting information submitted to the department confirms that three wells were completed in 1992, pumps were installed and pumping (limited extent) for each of the wells by 1993, and 88 residential lots were stubbed-in sometime prior to July 7, 1994. Since proof of beneficial use was due on March 1, 1994 for the permit and since the statute requires that the permit holder must clearly establish the extent of beneficial use made during that time, some additional information is necessary to establish the extent of completion by March 1, 1994.

Permit No. 95-8768 authorized development and use of ground water for domestic purposes for 88 homes, irrigation of 28 acres and fire protection. The permit was approved on February 5, 1993 with proof of beneficial use to be filed by March 1, 1994. With sufficient proof, the Department is authorized to issue a license confirming the diversion and use of water developed during the authorized development period for the permit. Development made afterwards cannot be included when a permit is licensed. For subdivisions, the Department has a longstanding practice of licensing use for stubbed-in lots. Under the "stub-in" practice, the department issues water right licenses according to the capacity of the water distribution system for domestic purposes if the water diversion and distribution systems are in place, including piping to each lot, by the end of the authorized development period, regardless of the number of homes actually constructed. The Department's "stub-in" practice is applied to each home that would individually qualify as a domestic use as defined in Section 42-111(1)(a), *Idaho Code* and could include up to ½ acre of irrigation per home site.

MICROFILMED

NOV 26 2003

In addition to information supporting the actual completion date of all the lots in the subdivision, information confirming the installed capacity of Well 3 (by March 1, 1994) will be necessary. The information submitted for the pumps installed on Wells 1 and 2 appears to be sufficient at this time.

Section 42-217, *Idaho Code* requires that proof submittal shall include fees or a field exam report prepared by a certified water right examiner. The appropriate fee for submitting proof is found under Section 42-221, *Idaho Code*. A fee of \$175 would be required for the permitted amount under Permit no. 95-8768.

Your affidavit indicated that the Majestic View Water System was conveyed to the City of Post Falls by Mr. Kenneth Way (permit holder) in 1992. An Assignment of Permit is necessary to show the change in ownership of the permit. A filing fee of \$25 is required for the assignment; an assignment form is enclosed for your use.

If you have any questions, please contact me at 208-327-7900.

Sincerely,

Jeff Peppersack, Manager
Water Right Permits Section

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner.

1. Permit No. _____ Telephone No. _____

2. Name of Permit Holder(s): _____

3. Mailing Address: _____

City _____ State _____ Zip _____

4. Source of Water: _____ If **GROUNDWATER** (well), Date Drilled: mo. _____ / yr. _____

Well Driller: _____ Drilling Permit Number: _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____

Irrigation (No. of acres): _____ Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: _____ cfs OR _____ acre-feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)

(This question is not optional. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required?

Yes _____ or No _____

Has the measuring device been installed?

Yes _____ or No _____

8. Fee Enclosed: \$ _____ (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

Name: _____ Telephone Number: _____

Address: _____

10. **The information given on this form is my true statement of the extent to which the above numbered permit has been developed and water has been diverted. I agree to relinquish any undeveloped portion of the permit to the State of Idaho.**

Signature of permit holder: _____ Date: _____

DEPARTMENT OF WATER RESOURCES**

INSTRUCTIONS FOR FILING PROOF OF BENEFICIAL USE

HOW TO MAKE PROOF:

In order for a permit holder to fulfill the conditions of the permit obtain a water right license, the permit holder must submit the Proof of Beneficial Use form (proof) together with the license examination fee (if required) **OR** submit the proof together with a completed field examination report prepared by a certified water right examiner on or before the date set in the permit for the proof. The information submitted by the permit holder will enable the department to determine the extent of beneficial use before the license is issued. The information entered on the proof form should show the extent of actual development of the project and should correspond to that authorized by the permit. If it does not, an amendment (change) to the permit may be required.

WHAT TO DO IN CASE YOU HAVE NOT FULLY APPLIED THE WATER TO BENEFICIAL USE:

If the development authorized by the permit has not been completed in the time allowed, the permit holder may submit a request for extension of time in which to submit the proof. In order for a request for extension of time to be considered without loss of priority, it must be filed prior to the date on which proof of beneficial use is due. Each request for extension of time will be considered on its own merits.

WHAT IF YOU FAIL TO MAKE PROOF OF BENEFICIAL USE ON TIME:

If you have applied the water to beneficial use, but did not submit the proof of beneficial use on or before the date set for the proof, the permit will lapse. A lapsed permit may be reinstated within **sixty (60) days** from the date the department sends the lapse notice. In order for the department to reinstate the permit, the permit holder must show reasonable cause why the permit should be reinstated. Submission of an acceptable proof of beneficial use form within the sixty (60) day period will be considered as reasonable cause for reinstatement.

EXAMINATION FEE:

Section 42-217 and Section 42-221, Idaho Code, require an examination fee as part of the proof of beneficial use submittal if a completed field examination report prepared by a certified water right examiner is not submitted as part of the proof. The fee is based upon the rate of diversion or volume of water claimed on the proof of beneficial use form. **The appropriate fee can be determined from the license examination fee schedule on the back of these instructions.**

ISSUANCE OF LICENSE:

The department will issue a license of water right based on the determination of the amount of water beneficially used in compliance with existing law. The license will include specific information to describe the water right developed.

NOTE - You must comply with the conditions of approval of your permit or seek to have the department waive the conditions. (See the last page of the permit for conditions).

Dear Bob,

The Enclosed is a packet of information to show "Beneficial Use" of the Majestic View Water System.

Enclosed you will find:

1. Affidavit of Terry Werner
2. As built drawings
3. Pump records from 93-94
4. Driller's reports
5. Pumping information

We would like to finalize the Permit No. 95-8768 for water rights and change the status to "Municipal Use."

Please review the information and let me know if we need to supply additional information or fill out more paperwork and any fees we will need to pay.

Thank you.

Sincerely,

Terry Werner
Utility Superintendent

AFFIDAVIT OF TERRY WERNER
PROOF OF BENEFICIAL USE
MAJESTIC VIEW ESTATES

STATE OF IDAHO)
) ss
County of Kootenai)

Terry Werner, being duly sworn deposes and says:

Mr. Kenneth Way was the developer of the Majestic View Estates. He applied for water rights in 1992, reference number 95-8768. Mr. Way conveyed the water system to the City of Post Falls in November of 1993.

The Majestic View Estates water system consists of three wells, drilled under Drilling Permit No. 95-92-N-179 (Well No. 1), 95-92-N-203 (Well No. 2), and 95-92-N-208 (Well No. 3). Wells No. 1 and 2 are used for domestic and irrigation use. Well No. 3 is for higher flows, such as fire demand.

The following information and attached documents are provided to show proof of beneficial use before March, 1994:

1. As-built drawings dated 7-31-92 (on the cover sheet) and revised date of 7-7-94.
 - a. This subdivision was built in two phases, with the first phase being completed in 1992. Phase 1 consists of 77 lots, 76 of these being single family residences and 1 lot of the well site. Phase 2 was completed in 1994 and consists of 12 additional single family residential lots.
2. The weekly well logs, which the City started keeping in December, 1993, are included with the packet.
3. The well driller's report for these wells have been included with this packet. They are dated 9-2-92 (Well 1), 10-1-92 (Well 2) and 10-5-92 (Well 3).
4. On December 4, 2002, Matt Isch, Chief Operator for the City Water Division and I conducted a pump test on Wells 1 and 2. Well 1 pumped 170 gpm and Well 2 pumped 180 gpm. We did not test pump Well 3.

MICROFILMED

NOV 26 2003

a. The submersible pumps in Wells 1 and 2 are each model 200L. The manufacturer's information on the pumps is included in the packet.

I believe the information that the City has provided in this affidavit shows the beneficial use of the Majestic View Water System.

Dated this 17 day of December, 2002.

Terry Werner

WELL DRILLER'S REPORT

State law requires that this report be filed with the Director, Department of Water Resources within 30 days after the completion or abandonment of the well.

[illegible]

USE ADDITIONAL SHEETS IF NECESSARY - FORWARD THE WHITE COPY TO THE DEPARTMENT

Goulds STAINLESS STEEL Submersible Pumps

MODEL

200L

For 6" and larger wells

SPECIFICATIONS

- Capacities: to 310 GPM.
- Heads: to 890 feet.
- Best efficiency point: 200 GPM.
- Horsepower: 7-10 HP – Single Phase
7-40 HP – Three Phase
60 Hz, 3500 RPM
- Discharge connection: 3" NPT.
- Rotation: counterclockwise when
looking into discharge.
- Recommended for 6" wells or larger.

FEATURES

Powered for Continuous Operation: All ratings are within the working limits of the motor manufacturer. Pump can be operated continuously with no fear of damage to the motor.

Completely Field Serviceable: Easy to install and service. All parts easily dismantled if field service is ever necessary.

Diverse Application: Designed for industrial, municipal and agricultural water needs.

Stainless Steel Casing: Durable in the most corrosive waters.

Bearings: Replaceable fluted NBR bearings allow excellent abrasives handling and wear resistance.

Built-in Rugged Check Valve: Positive sealing, stainless steel check valve assembly incorporated into discharge head.

Bowls: Stainless steel turbine bowl design, assembled with pressed in NBR wearing rings.

Impellers: Rugged stainless steel construction resists mineral and algae deposits.

Stainless Steel Shaft Sleeve: Corrosion resistant.

Four-Fluted Shaft Design: Four sided stainless steel shaft eliminates impeller keys and provides more positive drive.

Coupling: Heavy duty stainless steel, splined coupling for maximum load-carrying characteristics.

Suction Strainer: Stainless steel strainer restricts gravel and other debris from entering the pump.

Cable Guard: Stainless steel cable guard surrounds and protects motor leads.

Fasteners: All fasteners are stainless steel.

Franklin Electric Motor: Stainless steel casing and epoxy coated end bells resist corrosion. Water filled design provides a constant supply of lubrication. Hermetically sealed stator assures

moisture free windings. Durable Kingsbury type thrust bearing absorbs all thrust. Replaceable motor lead assembly.

System Components: The basic pump-motor unit includes a three wire motor lead. A control box is supplied as standard equipment with all single phase units. A magnetic starter with three-leg protection is required with all three phase units. Magnetic starter and heaters must be ordered separately.

RE: PERMIT NO. 95-08768 LAPSE NOTICE

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced permit has lapsed and is of no further force nor effect. The department provided the proper forms to you in our proof due notice dated December 31, 1993. No further construction or additional development is authorized under this permit unless it is reinstated.

The permit can only be reinstated if you submit an acceptable proof of beneficial use or an acceptable request for extension of time to the department within sixty (60) days of the mailing of this lapse notice. An acceptable proof of beneficial use submittal must include the examination fee or a completed field examination report. A request for extension of time must be accompanied by a fifteen dollar (\$15) fee.

Enclosed again for your use are a proof of beneficial use form and a request for extension of time form. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a government agency or by litigation which may bring title to the water in question.

L. GLEN SAXTON
Chief, Water Allocation Bureau

PROOF DUE NOTICE

RE: PERMIT NO. 95-08768

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1994. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-08768

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

Enclosed is a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed is a form entitled "Proof of Beneficial Use". If your project is already completed you should complete and submit this form immediately.

Be sure to note the special condition requiring you to install a measuring device. Enclosed, for your reference, is a list of measuring device options.

Sincerely,

A handwritten signature in cursive script that reads "Brenda L. Miller".

MEMORANDUM

TO: Application 95-08768
FROM: Brenda Miller *BM*
DATE: November 25, 1992
RE: Information Clarification

=====

This application appears somewhat confusing. The database indicates that three drilling permits have been issued on this application. Two permits were issued for the NWNW (95-92-N-203 & 95-92-N-208) and one for the NENE (95-92-N-179) and yet only one point of diversion is listed and was advertised that way.

Also, the fee for 3.75 cfs is \$105.00 not \$45.00. Could you please help me out on this one? I would appreciate it.

Thanks!

Re: Verbal Permit No. 95-92-N-203 - Ken Way - Majestic View Estates

Gentlemen:

Please be advised that we have issued Verbal Well Drilling Permit No. 95-92-N-203 in order for the Majestic View Estates well to be dug before inclement weather sets in.

Please note, however, that no diversion of water may take place until Mr. Way's Water Right Application for Permit No. 95-8768 has been approved.

If you have any questions, please feel free to contact me at this office.

Sincerely,

Mr. Ken Way
111 E. Kelse Dr.
Spirit Lake, Id. 83869

Dear Mr. Way:

The Idaho Department of Water Resources hereby acknowledges receipt of the above referenced Application For Permit To Appropriation the Public Waters Of The State Of Idaho. To assist us in providing you with prompt, accurate service, please refer to the above referenced number in all future matters concerning this water right application.

Your appropriation application is currently being prepared for advertising in the county newspaper. This advertisement will be published for two consecutive weeks followed by a waiting period of ten days to allow for the submittal of protests.

If the application is not protested it will be forwarded to Boise to be considered for approval by the Director. However, if the application is protested during this waiting period, you will be sent a copy of the protest and instructions to aid you in resolving the protest without a hearing. However all protests must be resolved before approval of the application can be made, so if the protestant does not voluntarily withdraw the protest, this department will conduct a conference and/or hearing on the matter.

If your application is for groundwater and unless you are using a well that was constructed prior to July 1, 1987, it will be necessary for you to apply for a well drilling permit upon approval of the appropriation application. Well drilling permits can be issued by this office only to holders of approved appropriation permits.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

ALLEN BEARDSLEE
Sr. Water Resource Agent

AFFIDAVIT OF PUBLICATION

Sept. 3, 10, 1992

NOTICES OF CORRECTION

NOTICE IS HEREBY GIVEN THAT APPLICATION FOR PERMIT NO. 95-8766 in the name of Mountainview Ranches was advertised incorrectly on 8/20 & 27/1992.

The Place of Use was incorrectly described as T51N R04W S29 NENE; whereas correctly it should be T51N R04W S29 NENE and SENE.

APPLICATION FOR PERMIT NO. 95-8768 in the name of Ken Way was also advertised incorrectly on 9/3 & 10/1992.

The Place of Use failed to include the number of irrigated acres; correctly, it should be T50N R05W S08 NWNW for 28 acres.

(For additional information concerning the property location, call the Northern Regional Office at 765-4639.)

Protests to the above-referenced corrections must be filed with the Director, Dept. of Water Resources, 1910 Northwest Blvd., Suite 210, Coeur d'Alene, Id. 83814 on or before OCTOBER 19, 1992.

R. KEITH HIGGINSON, Dir.

Published in the Coeur d'Alene Press on October 1 and 8, 1992.

AFFIDAVIT OF PUBLICATION

STATE OF IDAHO,
County of Kootenai, } ss.

Ken Alexander

being first duly sworn upon oath deposes and says:

1. I am now and at all times hereinafter mentioned was a citizen of the United States, resident of the State of Idaho, over the age of twenty-one years and not a party of the above entitled action.

2. I am now and at all times hereinafter mentioned was the printer (principal clerk) of the "Coeur d'Alene Press," a newspaper printed and published daily except Sunday in Coeur d'Alene, Kootenai County, Idaho, and having a general circulation in said county.

3. The *Legal notice*

of which the annexed is a printed copy, was published in the regular *Thurs.* issue of said newspaper for *2* consecutive *weeks* commencing on the *15* day of *October*, 19*92* and ending on the *31st* day of *October*, 19*92*, and such publication was made as often during said period as said *daily* newspaper was regularly issued.

4. That said newspaper has been continuously and uninterruptedly published in said Kootenai County, during a period of more than seventy-eight consecutive weeks immediately prior to the first publication of said notice.

Ken Alexander

Subscribed and sworn to before me this *3th* day of *October*, 19*92*

Roberta Manley
Notary Public for the State of Idaho,
residing at Coeur d'Alene, Idaho.
