Re: Appropriation Application

Dear Mr. Burrington:

It has come to the attention of this Department that you are planning to install a water system which will withdraw water from Hayden Lake, within Sec. 16, T51N, R3W. We have checked the departmental records and have found no record of an appropriation application or other water rights in your name within this area.

According to I.C. 42-201 it is unlawful to divert water from a public water source without a valid water right. The only method of obtaining a water right is through filing an Application for Permit To Appropriate The Public Waters Of The State Of Idaho with the Idaho Department of Water Resources. You must therefore suspend any use of the water until you have obtained an approved permit from this department.

If you file the enclosed application for permit to appropriate the public water of the State of Idaho and if your application is approved, you will be given one year to commence construction of the diversion structure and up to five years to complete the project and put the water to a beneficial use.

If you have any questions or if I can be of any assistance please feel free to contact me at this office.

Sincerely,

Tom D. King
Sr. Water Resource Agent
