WATER RIGHT LICENSE

AMENDED

WATER RIGHT NO. 95-08728

Priority: November 13, 1991

Maximum Diversion Rate:

0.09 CFS

Maximum Diversion Volume:

27.0 AF

This is to certify, that STONERIDGE PINES WATER ASSN INC
HCR 2 BOX 104

HARRISON ID 83833

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 13, 1991; and has submitted Proof of Beneficial Use on January 30, 1995. An examination indicates that the works have a diversion capacity of 0.090 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	0.09 CFS	15.0 AF
DOMESTIC	01/01 to 12/31	0.09 CFS	12.0 AF
	Totals	0.09 CFS	27.0 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 3(SWNW), Sec. 18, Township 49N, Range 03W
KOOTENAI County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>	
49N	03W	18	Lot 3(SWNW)	2.5	Lot 2(SENW)	2.5	5

Total number of acres irrigated: 5

PLACE OF USE:

DOMESTIC, same as IRRIGATION use

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

MEMORANDUM

DATE: November 21, 1996

TO: File 95-08728

FROM: Shelley W. Keen *SWK*

RE: License remark no. 8

This afternoon Geri Varney of Stoneridge Pines Water Assn., Inc., called to discuss remark no. 8 on the license issued for right 95-08728. She said that the water is actually used in Stoneridge Pines I (along the lake) and Blocks 1-5 of Stoneridge Pines II. I reviewed the subdivision map submitted with the field examination and found that Mrs. Varney is correct. I told her that I would be sure to write a memo to the file. Because the remark is merely explanatory, I do not think an amended license is required.

MEMORANDUM

DATE: November 13, 1996

TO: File 95-08728

FROM: Shelley W. Keen *SWK*

RE: Conversation with LaVar Varney

This morning I spoke on the phone with LaVar Varney of Stoneridge Pines Water Assn., Inc., about his request for an amended license. He reaffirmed that he believes that the existing system will serve about 20 homes.

Mr. Varney and I also discussed changing the diversion rate from .16 cfs to .09 cfs based on the data he submitted to me. Mr. Varney agreed that the license should be based on the best information available.

MEMORANDUM

DATE: November 8, 1996

TO: File 95-08728

FROM: Shelley W. Keen ^{SWK}

RE: Amended License

On 10/17/96 we issued Water Right License 95-08728 to the Stoneridge Pines Water Assn. for domestic use on 12 lots and for 5 acres of irrigation. On 10/24/96 I received a request from LaVar Varney of Stoneridge Pines Water Assn. for reconsideration of the license. Mr. Varney submitted information about the system and asked that the license be issued for use on up to 20 lots.

Based on the information provided, which includes field survey data from Health District 1, the lines appear to be in place and the system appears capable of serving the domestic needs for 20 homes. The key component of the system is the 20000 gallons of storage, which is more than sufficient to meet the projected peak demand requirements for 20 homes and the simultaneous irrigation of 5 acres.

An amended license appears warranted.

Analysis of System Capacity for Subdivisions

Operator: S. W. Keen

Date: 11/6/96

Right No.: 95-08728

Existing or Proposed System

Storage capacity in gallons	20000 gal	
Pump horsepower	5 hp	
Pumping depth (ft.)	240 ft	
Pump discharge pressure	50 psi	
Theoretical pumping capacity	0.09 cfs	38.9 gpm
Measured pumping capacity	cfs	. gpm

Requirements

Number of homes	20 homes
Gallons per day per home	500 gal
Area irrigated	5 acres
Peak demand period	20 min

Calculations

Peak instantaneous demand	0.30 cfs	135.8 gpm
Suggested pump capacity	0.09 cfs	40.8 gpm
Peak demand volume	3615 gal	
Max potential daily diversion vol	55992 gal	
Total daily volume required	15385.6 gal	0.047 af
Time required to pump daily vol	6.6 hr	396 min
Time required to refill tank	1.5 hr	93 min

Key Questions

Does existing storage capacity exceed peak demand volume?	Yes
Does existing pumping capacity meet or exceed the suggested pumping capacity?	No *
Can the system produce the required daily volume in under 24 hours?	Yes

Notes:

* Theoretical pumping capacity and the suggested pump capacity for a 20-home subdivision are actually very close.

Attention: Shelley W. Keen

Dear Mr. Keen:

RE: Stoneridge Pines Association, inc.
Water Right No. ~~95-08728~~

Pertinent to our telephone conversation this date regarding the above mentioned Water Right License, we respectfully request the Department of Water Resources to re-evaluate our Water Right License.

We would like to draw your attention to the "Condition of Approval and Remarks" section of the license, particularly numbers five (5) and seven (7). We feel at our current growth rate these numbers are too low (#5) and too specific (#7).

In our area map submitted to Wayne Baldwin, Coeur d'Alene office of Department of Water Resources, and of which he forwarded on to you, please note our water lines and outside risers are in place and have been since the development of the Association in the 1960's.

All 44 lots of the Association have a water hookup waiting for the owner of the lot to hook on to, if the owner chooses. When we submitted our map in June 1995 to Mr. Baldwin, we had nine (9) water users. This year, 1996, we have added two new homes and they are now on our water systems.

Of course, we have no way of knowing what our growth rate in the future will be, however, our area continues to be very popular to newcomers and since our Association is small, developed and has water lines, with excellent water, people notice.

Our best estimate would be the present Association water system could accommodate nine new water hookups. We have 20,000 gallon water storage; the pump size and other pertinent information can be found in the enclosed attachments.

We are enclosing for your review:

JAN 2 1997

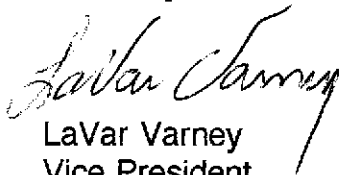

1. Well Drillers Report
2. Field Survey Data (done by Panhandle Health District #1)
3. Letter to Mike Nelson - Water Drawdown Test or Log of Pump Test

It is also our opinion we would need to upgrade our system when we exceed twenty water hookups. We feel we would need a ten horsepower pump and add additional water storage.

We are willing to discuss this matter with you at anytime. Our telephone number is (208) 667-5131, or if we can supply you with additional information, please advise.

Again, we respectfully request your review of our situation.

Sincerely,

LaVar Varney
Vice President,
Stoneridge Pines Association, Inc.

Drinking Water Supply Report

YEAR: 1994

SYSTEM: Stoneridge Pines COUNTY: Kootenai
OWNERSHIP: Stoneridge Pines
INFORMATION OBTAINED FROM: LaVar Varney
LOCATION: Gotham Bay Road, off Hwy 95
INSPECTOR: Mike Nelson *ML* DATE OF SURVEY: 03/22/94
POPULATION SERVED: 10 residences, 47 possible

FIELD SURVEY DATA

The system is served by a 6" cased drilled well 300' in depth. The casing extends 14" above the ground surface and is fitted with a watertight, vented well cap. The well is equipped with a 5 hp submersible pump which discharges through a pitless adapter in 2" galvanized pipe. There is a 1" blow off with a sample tap located approximately 4' from the well. The well discharges to four interconnected 5,000 gallon concrete reservoirs. The reservoirs are fitted with 2' diameter aluminum culvert manholes which are covered with locking, vented, overlapping steel lids. The reservoirs form three sides of a pumphouse, the remainder of which is wood frame with a metal roof and poured concrete floor. The pumphouse is drained to a sump approximately 30' downslope. The submersible pump is controlled by a solenoid pressure switch in the pumphouse. The reservoirs discharge through 3" galvanized to a branched distribution system, the uphill portion of which has a 2-1/2 hp booster pump. Two pressure tanks, WX-302 and WX-252, ride on the system. The distribution system consists of 4", 3" and 2" PVC, with blow offs at the terminal points.

There is no treatment provided.

MEMORANDUM

DATE: October 24, 1996

TO: File 95-08728

FROM: Shelley W. Keen *SWK*

RE: Number of homes authorized

This morning Jerry and LaVar Varney, who represent Stoneridge Pines Water Association, called to discuss the license recently issued for Water Right 95-08728. Their concern is that the license recognizes use of water in only 12 homes, when there are 40 lots in the subdivision. They do not want to have to file a new application for each new home.

I explained that subdivisions are usually given credit for stubbed-in lots as long as the existing system diversion capacity is able to meet the needs of all the stubbed-in lots. The Varneys told me that lines are extended to all the lots in the subdivision. They also said, however, that the existing diversion system will probably meet peak demand for only 15 to 20 homes.

The Varneys intend to submit a written request for reconsideration of the license. Along with their request, they will submit engineering design specifications for the diversion and distribution system in place at Stoneridge Pines.

OCT 25 1996

MEMORANDUM

TO: File 95-08728

FROM: Sharla

DATE: October 9, 1996

RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08728 are based on the following:

C. DIVERSION AND DELIVERY SYSTEM

2. Place(s) of Use:

Lot 2 (SEnw), S18, T49N, R3W - 2.5 acres

Lot 3 (SWNW), S18, T49N, R3W - 2.5 acres

H. RECOMMENDATIONS

1. Recommended Amounts

Irrigation	3/15 - 11/15	0.10 cfs	
Domestic	1/1 - 12/31	0.16 cfs	7.2 afa

The drilling permit for this well was obtained for domestic use. The irrigation component is for lawn watering with the domestic units. The volume for domestic use has been adjusted for in-house use only.

The place of use identified on the map agrees with the original filing. The NWNW is in the water.

Examiner: Wayne Baldwin
Exam date: June 15, 1995

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is approvalDate 8/7/91

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the well right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for well appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well. All wells must be drilled a minimum distance of 100 feet from a dra field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PROOF DUE NOTICE

RE: PERMIT NO. 95-08728

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1995.

(See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

JULIE L. YARBROUGH
Senior Secretary

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-08728

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under Condition No. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

PAMELA SKAGGS
Technical Records Specialist
