* The final recommendations for the following portion(s) of the field exam were based on the information below.

C. DIVERSION AND DELIVERY SYSTEM

The permit owner disagreed with the licensing amendment request for a change in the p/d and p/u locations. She said she would send a copy of her tax notice. However, it did not shed any light on the correct $\frac{1}{4}$ s or Government Lot number. I telephoned the Kootenai County Assessor's Office and they confirmed the dwelling location to be in the NESW of Government Lot 4 (as permitted). The drawing of the system would indicate the p/d is directly north of the home on the lake front which is still in Government Lot 4, but in the SENW (as permitted).

PROOF DUE NOTICE

RE: PERMIT NO. 95-08703

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1993. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

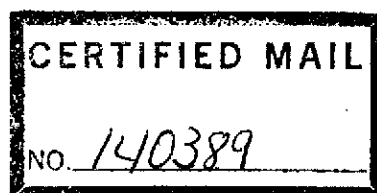

SINCERELY,

Dear Permit Holder:

The Department is in receipt of your letter requesting an extension of time for completion. The final date for proof of completion on this water right is September 1, 1993.

The Department does not consider requests for extensions that are filed six months or more prior to the completion date. Since you are not required to be complete until September of 1993, we cannot consider your request at this time.

The Department will notify you 60 days in advance of your required completion date. If, at that time, you are still not complete, you may complete a Request for Extension of Time form and submit it to the department.

I have also begun the process to refund the \$15 you submitted in connection with this request. The refund process takes between two and four weeks and will arrive under separate cover.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

Sincerely,

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.
