WATER RIGHT LICENSE

WATER RIGHT NO. 95-08671

Priority: August 27, 1990

Maximum Diversion Rate: 0.04 CFS
Maximum Diversion Volume: 1.8 AF

This is to certify, that PETE ALLEN
E 5144 I-90 BENNETT BAY
COEUR D ALENE ID 83814

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated August 27, 1990; and has submitted Proof of Beneficial Use on September 9, 1992. An examination indicates that the works have a diversion capacity of .060 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
COMMERCIAL	01/01 to 12/31	0.04 CFS	1.8 AF

LOCATION OF POINT(S) OF DIVERSION: Lot 2 (SWSW), Sec. 28, Township 50N, Range 03W
KOOTENAI County

PLACE OF USE: COMMERCIAL
TWN RGE SEC
50N 03W 28 Lot 2(SWSW)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Commercial use is for a 20 unit motel.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code.
Witness the seal and signature of the Director, affixed at Boise, this 15th
day of NOVEMBER, 1994.

Water from a 6" diameter well, which is 225 feet deep is pumped by a 2 hp Franklin submersible pump to an 86 gal Pressure tank and then into motel. Motel has 21 units & a manager's residence. There is one standpipe to irrigate a small lawn. There is also a system which draws water from Coeur d'Alene Lake. This system is mentioned on the Permit Application under "Other Water Rights", but no record of any other right covering this motel could be found.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for the above referenced water right are based on the information below:

G. VOLUME CALCULATIONS

Note: The permit was for a 20 unit motel (not 21) with 2 of the 20 having kitchenettes. Therefore, the volume was based on the following:

18 units / 2 beds / 40gpd = 1440 gpd
2 units / 2 beds / 50gpd = 200 gpd

Total = 1640 gpd

Volume recommendation adjusted. $\frac{598,600 \text{ gp/yr}}{325,850 \text{ gp/af}} = 1.8 \text{ af}$

Dear Permit Holder:

The Department is in receipt of the proof of beneficial use and \$50 license exam fee submitted in connection with the above referenced permit.

During our review of the proof, it was determined that since you use a groundwater source and use 0.04 cfs or less, you are not required to submit a fee.

I have begun the process to refund the \$50 overpayment. The process takes between two and four weeks and will arrive under separate cover.

If you have any questions or if I can be of any further assistance, please feel free to contact me.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is approved Date 9/17/90

If approved, this permit authorizes the constuction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

PROOF DUE NOTICE

RE: PERMIT NO. 95-08671

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before November 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 95-08671

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed. You will receive a "Proof Due Notice" from this Department approximately 60 days prior to the completion date requiring you to file either a Proof of Beneficial Use form stating that the project has been completed or file a Request for an Extension of Time in which to file the proof statement.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Sincerely,

JIM JOHNSON
Water Rights Supervisor
