CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.0 afa per acre for the lands above.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 95-8593, and said application is hereby APPROVED

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before

September 1, 19 91

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

e. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Diversion of water under this permit is subject to License No. 95-2067, Coeur d'Alene Lake.

Witness my hand this 4th day of November, 1988.

RE: Recommendation Adjustment(s)

=====

The final licensing recommendations for Right 95-08593 are based on the information below:

F. FLOW CALCULATIONS

Per telephone conversation with the maintenance supervisor for the Coeur d' Alene Golf Course, the 3 main pumps pump from a level of 5.75' with a 15' elevation raise to the first tee. The 10 hp booster pump is surface level in the pumping station and kicks in when the water is being pumped up hill. He said they pump an average of 1300 gpm for up to 12 hrs a day (@120 psi). Depending on the heat, it may be even longer (accounting for the July 22 high volume day).

$$\frac{8.8 \times .7 \times 140 \text{ hp (all 4 pumps)}}{21' + (2.31 \times 120 \text{ psi})} = 2.89 \text{ cfs}$$

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Irrigation	3-01 to 11-15	2.89	420.0

The volume has been changed to the current recommended guidelines for the per acre field headgate requirement of crops/lawns in that area. [3.0 afa per acre] In running the gpd totals for April through July, it is apparent the entire season's volume would not exceed what the standard recommendation would be.

RE: PERMIT NO. 95-08593

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)765-4639.

Sincerely,

Nina Shields

RE: PROOF OF BENEFICIAL USE - COEUR D'ALENE RESORT GOLF COURSE

Dear Bob:

Enclosed please find a completed Proof of Beneficial Use form for the pumping system at the Coeur d'Alene Resort Golf Course. We have completed this to the best of our ability and are providing you with the information we believe to be requested.

Also, please note that we enclose to you our calculated fee of \$150 based on our usage of 2.9 cubic feet per second.

Please review and if appropriate, forward on to the proper authorities in Boise. Should there be additional information needed, please contact me. Thank you.

Sincerely,

John R. Barlow

PROOF DUE NOTICE

RE: PERMIT NO. 95-08593

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Mr. Page:

Enclosed is the information sent to us with your letter of August 21, 1989. We do not need this information for our files. Also, this letter will suffice to acknowledge receipt of your request to be informed of all actions pertaining to the listed permits.

This Department will, by courtesy, attempt to notify you of action, however, there is no obligation to do so since you are not the permit holder of record. If you desire more security, I suggest that you have the permit holder assign ownership of the permit to you.

If you have any questions, please feel free to contact me at (208)327-7947.

Re: Notice of Lienholder's Interest in Permit No. 95-8593
and Permit No. 95-S-383

Gentlemen:

Enclosed are copies of Water Right Permit No. 95-8593 and Water Right Permit No. 95-S-383 that were issued to Hagadone Hospitality Co. by the Department of Water Resources on November 10, 1988, and November 21, 1988, respectively. I have also enclosed a copy of a Mortgage dated July 15, 1989 through which Hagadone Hospitality Co. granted a lien in those permits to Seattle-First National Bank, as agent for itself and First Hawaiian Bank. You are hereby notified that Hagadone Hospitality Co., whose current address is Hagadone Building on the Lake, Box C-6200, Coeur d'Alene, ID 83814-1926, has granted such a lien.

Please sign below in acknowledgment of your agreement to notify William E. Stone of any notices, objections, petitions, proposals or any other documents that may be filed or actions or proposed actions that may be taken in connection with the above-referenced permits. Mr. Stone can be reached at the following address: Seattle-First National Bank, P.O. Box 1446, Spokane, WA 99210.

Very truly yours,

Dear Permit Holder(s):

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the final page.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

Note the requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

RE: Overlapping Water Rights

I checked with John Barlow, an employee of Hagadone Hospitality, to determine whether the lands to which irrigation is proposed application no. 95-8593 were covered by an earlier water right. He represented to me that claim no. 95-4394 was appurtenant to the land, but had not been used since 1973. He was not certain which water right he should use, but had been advised by Bob Haynes in Couer d' Alene to proceed with administrative processing of application 95-8593.

Mr. Barlow stated that he would not object if we cancelled claim no. 95-4394. In keeping with past practice, however, I recommend that we simply limit the irrigation to .02 cfs when this right is combined with other rights.

We must also impose a condition as follows: Diversion of water under this permit is subject to license no. 95-2067, Couer d' Alene Lake.

Dear Claimant:

The Department of Water Resources acknowledges receipt of your water right application for permit.

This office is currently in the process of advertising the application in the local county newspaper. The advertisement will be published for two weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to the final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Enclosed please find your receipt for the fee involved in filing this application.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

ROBERT G. HAYNES, P.E.

RE: POTLATCH RESORT PROPERTY

Gentlemen:

As a part of our Application for Permit to draw water from Lake Coeur d' Alene, the purpose of our request for 4.75 cubic feet per second for approximately eight hours daily from March 1 to November 15 is for the irrigation of the golf course facility planned to be constructed on the old Potlatch Rutledge Mill site.

Exact details of the implementation of this irrigation are available through our engineers should there be any additional questions.
