RE: Licensing Review Information

=====

This permit's licensing recommendations are based on the following:

- Domestic 1. Additional number of homes (87) = 0.20 cfs
- 2. Annual volume @ 0.6 ~~af~~ = 52.2 af
- Irrigation 3. 100 acres @ .02 = 2.00 cfs
- 4. Corrected annual volume = 300 afa

NOTE: The examiner's recommendation of 0.0 cfs diversion rate for the domestic use and an annual volume of 52.2 isn't logical.

This field exam lists the system capacity for the two wells at 2.45 cfs. However, the project is covered under two other licenses with a total diversion of 2.56 cfs for 305 homes. Both licenses (95-02189 and 95-07463) were issued for domestic use only.

This permit splits the uses into domestic and irrigation. Both licenses and this permit evidently encompass the same 100 acres; therefore, a limiting, combined diversion condition is necessary.

PROOF DUE NOTICE

RE: PERMIT NO. 95-08535

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before February 1, 1992. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Karen L. Gustafson
Secretary/Records Manager
