PROOF DUE NOTICE

RE: PERMIT NO. 95-08508

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before August 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

ATTACHMENT TO REQUEST FOR EXTENSION

Working with the office Kootenai County Extension to rid the land of this Noxious weed. This requires annual applications of Tordon to eradicate the weed. We have applied this for two consecutive years at a cost of \$130.00 per acre each. We have been unable to improve or irrigate this land during this time as it would not be compatible to applying spray and controlling this weed.

It is mandatory to control the weed as it has been declared a "Noxious Weed". If we do not, we would be subject to a fine and the Weed Board would use means to control and charge us.

We believe we now have this controlled and will be able to again improve and irrigate commencing with the spring of 1991 and should be able to complete by August 1, 1991. Nothing can be done in 1990 or it will interfere with the recent application of the spray. I have discussed this with Tom D. King of the Coeur d'Alene office. When receiving the extension in 1988 we were not aware of the Noxious Weed problem or we would have requested a longer extension.

Dear Landowner or Lessee:

Another season of leafy spurge management is approaching. Enclosed is a new noxious weed control agreement for participation in Kootenai County's Cost Share Program. Note that the amount is again \$25 per treated acre. Any form of management that will prevent the leafy spurge from going to seed will be accepted under the Cost Share Program.

This year there are state cost share monies available for the purchase of goats for grazing management. There are also new backpack sprayers available from members of the Kootenai County Noxious Weed Control Advisory Board, along with slip-in tanks for use in pickups.

Please complete and return the enclosed agreement form to the Kootenai County Noxious Weed Control Office at 106 Dalton Avenue, Coeur d'Alene, Idaho, 83814, by May 31 to qualify. If you have any questions, please contact this office at (208) 667-6426.

Re: Water permit for Herbert Nagel/Carl Nagel

Dear Bob:

I certainly have no objection to reducing the water useage for domestic purposes to the amount normally and customarily allowed. I would so voluntarily amend my application. Apparently I was just given the wrong advice as to the amount I should be providing per household.

The lending institution that I talked to stated they desired to have at least twenty-five (25) gallons per minute per home on a private water system. That is basically how we arrived at the requested appropriation.

I will certainly follow your advice.

Very truly yours,

Dear Herb:

As we discussed earlier, the amount of water requested for domestic use appears to be excessive for the intended use.

The Department will take steps to reduce the amount to 0.13 CFS unless it can be proven to the Director's satisfaction that the excess water is needed.

Processing time in the regional office for advertising normally amounts to 20 days. If we do not receive justification for the amount proposed, I will recommend the reduction of the quantity for domestic purposes to 0.13 CFS, the amount we normally allow for 8 homes, prior to the approval of the application.

If you have any questions, please contact us.
