Re: Permit No. 95-8388

Dear Ms. Stevens:

We acknowledge receipt of your statement submitted as proof of beneficial use for the above-referenced permit.

Before a Water Right License can be issued, a field examination must be made by a representative of this department.

A condition of approval of your original permit required the installation of a lockable device which, according to the proof card submitted by you, has not been installed. A lockable device must be installed and operating at the time the field examination is made. If a lockable device is not installed, your permit may be subject to cancellation.

A field examiner will contact you to arrange to examine your system.

If you have any questions regarding the field examination or the lockable device, please contact this office by phone at 765-4639 or in person at our office.

Sincerely,

Ryan & Mac & Elizabeth Stevens
E. 1700 Sturgeon
Rathdrum, ID 83858

Dear Permit Holder:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Be sure to note the special condition requiring you to install a lockable device that will provide the watermaster control of your diversion.

Please be advised that there is insufficient natural flow available in the Twin Lakes area to provide water for a new appropriation throughout the entire season of use. During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your permit. As the natural flow diminishes, however, there may be no water available for your right unless you arrange for an additional source of water as a supplemental supply.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is the statement of beneficial use postcard that must be submitted when your project is completed.
