WATER RIGHT LICENSE

WATER RIGHT NO. 95-08338

Priority: June 10, 1983

Maximum Diversion Rate:

0.22 CFS

Maximum Diversion Volume:

159.0 AF

This is to certify, that MICA BAY LAND CO INC
HC 12 BOX 464

COEUR D ALENE ID 83814

has complied with the terms and conditions
of the permit, issued pursuant to Application for Permit dated June 10, 1983; and
has submitted Proof of Beneficial Use on August 25, 1993. An examination indicates
that the works have a diversion capacity of 0.220 cfs of water from:

MICA CREEK, SOUTH FORK

tributary to MICA CREEK

source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
POWER	01/01 to 12/31	0.22 CFS	159.0 AF

LOCATION OF POINT(S) OF DIVERSION:

NESW , Sec. 23, Township 49N, Range 05W
KOOTENAI County

PLACE OF USE: POWER

TWN RGE SEC

49N 05W 23

SWNE

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.
6. Use of water under this right shall be non-consumptive.

MICROFILMED

State of Idaho
Department of Water Resources**WATER RIGHT LICENSE**

WATER RIGHT NO. 95-08338

CONDITIONS OF APPROVAL AND REMARKS

7. The rights for the use of water confirmed in this license shall be junior and subordinate to all rights for the use of water other than hydropower, within the State of Idaho that are initiated later in time than the priority of this right and shall not give rise to any right or claim against any future rights for the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this right.
8. The diversion and use of water under this license is subject to review by the Director on or after September 1, 2003. Upon appropriate findings relative to the interest of the public, the Director may cancel all or any part of the use authorized herein and may revise, delete or add conditions under which the right may be exercised.
9. Right 95-08330 is also diverted at the point of diversion described above.
10. Use of this right with Right 95-08330 is limited to a total combined rate of diversion of 0.44 cfs, and to a total combined annual diversion volume of 318.0 af.

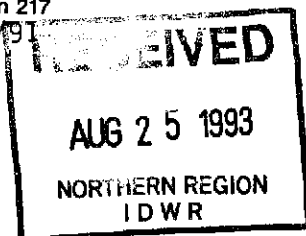

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 14TH day of SEPTEMBER, 1996.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 95-8338, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

Use of water under this permit is subordinated to future diversion of water for irrigation or other consumptive beneficial uses.

The permit holder shall either install a measuring device or an access port or provide a certified measurement or computation of flow based upon system design to be prepared by a professional engineer.

This permit is subject to the provisions of Sections 42-205 through 42-210, Idaho Code, restricting the sale, transfer, assignment, or mortgage of this permit. Failure to comply with these provisions is cause for immediate cancellation of this permit.

This permit does not constitute Idaho Public Utilities Commission or Federal Energy Regulatory Commission approval that may be required.

Witness my hand this 29th day of December, 1983.

J. Glen Saxton

Enclosure

MICROFILMED
NOV 8 1996

MEMORANDUM

TO: Files 95-08330 and 95-08338

FROM: Sharla

DATE: August 22, 1996

RE: Recommendation Adjustment(s)

While reviewing 95-08338 for licensing, Right 95-08330 was pulled for overlap review. It was ready for licensing review as well so the two have been reviewed together.

Power is generated under Right 95-08338 and is an individual power facility does not require licensing from FERC. Since power is solely used by the right holder and is not sold, there is no power purchase contract. Therefore, the term of years to be listed on the license is not pre-determined by the above. As set forth in Section 42-203B(7), the term of years (once determined) is calculated as commencing at the time of the proof of beneficial use filing. Previously issued licenses falling in this category have had a term set for 10 years. In this case, proof was filed in August 1993, the term will be listed as expiring September 1, 2003.

The point of diversion used under 95-08338 is one of two points of diversion used for fish propagation under 95-08330. Conditions limiting the combined rate of diversion and volume will be added to both rights. As explained by the examiner, diversion is continuous 24 hrs/day, 365 days/year; the volume has been calculated as such.

On 8/30/96 I spoke with Ron Evans (owner) regarding facility volume. Besides the 2-800 gallon and 2-400 gallon tanks for the hatchery building, the following are the dimensions for the holding ponds/fish runs:

3 100 X 12 (3,600 ft²)

2 10 X 10 (200 ft²)

4 10 X 50 (2,000 ft²)

7 10 X 60 (4,200 ft²)

all ponds are average 2.5' in depth

$10,000 \text{ ft}^2 \times 2.5 = 25,000 \text{ ft}^3 +$

2400 gallons in tanks = $321 \text{ ft}^3 (2400/7.48) = 25,321 \text{ ft}^3$ facility volume

RE: Recommendation Adjustment(s)

While reviewing 95-08338 for licensing, Right 95-08330 was pulled for overlap review. It was ready for licensing review as well so the two have been reviewed together.

Power is generated under Right 95-08338 and is an individual power facility does not require licensing from FERC. Since power is solely used by the right holder and is not sold, there is no power purchase contract. Therefore, the term of years to be listed on the license is not pre-determined by the above. As set forth in Section 42-203B(7), the term of years (once determined) is calculated as commencing at the time of the proof of beneficial use filing. Previously issued licenses falling in this category have had a term set for 10 years. In this case, proof was filed in August 1993, the term will be listed as expiring September 1, 2003.

The point of diversion used under 95-08338 is one of two points of diversion used for fish propagation under 95-08330. Conditions limiting the combined rate of diversion and volume will be added to both rights. As explained by the examiner, diversion is continuous 24 hrs/day, 365 days/year; the volume has been calculated as such.

The examiner measured the diversions with a 5 gallon bucket, with each point of diversion filling the bucket is less than 5 seconds. The bucket method should not be used if the bucket fills in less than 5 seconds. The rate of diversion allowed on the licenses for each point of diversion has been based upon the carrying capacity of the pvc pipe used for delivery. The pipe is 4" in diameter and at a velocity of 5 fps, 0.44 cfs can be transmitted through the pipe (based upon water availability, of course).

Examiner: Ted McCracken
Exam date: 1995/1996

MICROFILMED
NOV 08 1996

DATE: 08/23/96
PAGE: 1

The diversion and use of water under this license is subject to review by the Director on or after September 1, 2003. Upon appropriate findings relative to the interest of the public, the Director may cancel all or any part of the use authorized herein and may revise, delete or add conditions under which the right may be exercised.

Right 95-08330 is also diverted at the point of diversion described above.

Use of this right with Right 95-08330 is limited to a total combined rate of diversion of 0.88 cfs, and to a total combined annual diversion volume of 636.0 af.

E. NARRATIVE/REMARKS/COMMENTS

Water from the south fork of Mica Creek is diverted by concrete dam in creek then piped through a 4" pvc penstock approx 150' with 150' of vertical head to generator after power generation the "used" water is then used to fill his fish ponds for fish propagation permit # 95-08530 My flow measurement indicated a flow of 100 gpm or .22 cfs which is far from the 35 cfs on application.

Have conditions of permit approval been met? ☒ yes ☐ no

MEMORANDUM

TO: ~~Shelley Keen / Northern Region~~ *File*
FROM: Brenda Chapman
DATE: January 24, 1996
RE: Exam Deficiencies

I recommend the exam for 95-08338 be returned to the region for clarification of the following matters:

1. The place of use marked on the front of the exam is in a different $\frac{1}{4}$ than what is drawn on the exam map.
2. A rate of flow of 3.5 cfs cannot be recommended without a measurement having been done.

al,

Here's one of the exams I mentioned to you last week.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 95-08338

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the NORTHERN Regional Office in Coeur D' Alene at (208)769-1450.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF DUE NOTICE

RE: PERMIT NO. 95-08338

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before December 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. 95-8338

DEAR PERMIT HOLDER:

ENCLOSED IS A COPY OF YOUR APPROVED APPLICATION FOR PERMIT. WE DIRECT YOUR ATTENTION TO THE CONDITIONS OF APPROVAL ON THE FOURTH PAGE.

PLEASE BE ADVISED THAT PRIOR APPLICATIONS FOR PERMIT HAVE BEEN FILED TO APPROPRIATE WATER FROM YOUR SOURCE WHICH MAY IMPACT THE AVAILABILITY OF WATER TO BE USED UNDER THIS PERMIT. THEREFORE, YOU SHOULD BE SURE TO ANALYZE THE IMPACT OF THESE RIGHTS BEFORE MAKING A MAJOR INVESTMENT FOR YOUR WATER USE PROJECT.

THE 1982 IDAHO LEGISLATURE ADDED A REQUIREMENT THAT AS A PERMIT HOLDER YOU MUST COMMENCE THE EXCAVATION OR CONSTRUCTION OF DIVERTING WORKS WITHIN ONE YEAR OF THE DATE THE PERMIT WAS ISSUED, AND YOU MUST PROCEED DILIGENTLY UNTIL THE PROJECT IS COMPLETED. THE ENCLOSED BLUE CARD MUST BE COMPLETED AND RETURNED TO THIS OFFICE AS SOON AS YOU COMMENCE CONSTRUCTION, NO LATER THAN ONE YEAR FROM THE DATE THE PERMIT WAS APPROVED.

WE HAVE ENCLOSED INSTRUCTIONS ENTITLED "MAKING PROOF OF BENEFICIAL USE". PLEASE READ THE INSTRUCTIONS CAREFULLY SINCE YOU MUST TAKE FURTHER ACTION TO DEVELOP THIS PERMIT INTO A LICENSE.

REPRODUCED

MEMORANDUM

TO: Files 95-8337 and 95-8338

FROM: Bob Haynes

RE: Protests on These Files.

DATE: October 27, 1983

Prior to the conference or hearing scheduled for September 14, 1983, it was discovered that the notice of protest had been sent to Mica Bay Land Company on the wrong water right files.

File Nos. 95-8337 and 95-8338, which are both for power generation, had been pulled and the notice of protest sent to the applicant. The protest really did not specify the numbers of the applications protested. However, discussions with the protestants prior to receipt of the letter of protest and statements made by the protestants at the conference on September 14 clearly indicate that the applications being protested were Nos. 95-8327 and 95-8329, both of which were for irrigation.

An error in the regional office resulted in 95-8337 and 95-8338 being suspended from processing and 95-8327 and 95-8329 being sent on to Boise and subsequently being approved.

Processing and approval of 95-8337 and 95-8338 should be resumed and completed.

There has been some indications that the protestants and applicant may resolve their differences on 95-8327 and 95-8329. If this does not occur, approval of those applications will have to be rescinded and the proper administrative process followed.
