Dear Sir:

We acknowledge receipt of your statement of completion of water development use for the above-referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We do not know at this time when he will be able to conduct the examination; however, the examiner will try to contact you at the time he makes the examination so that you may show him the system. If you will not be available to show the system, please provide this office with the name and address of someone who will be able to do so. Your permit will remain valid until the examination is made.

If you have any questions concerning the field examination, please contact this office. Please be sure to use the above-referenced permit number in all future correspondence concerning this examination.

Dear Mr. Wetter:

This office acknowledges receipt of the proof of beneficial use and your letter submitted to this office on April 14, 1988.

In your letter, you make mention that 0.04 cfs is about 24,192 gallons per day. Your mathematics is a little off, it amounts to about 13,000 gallons per day. But, if your concern is whether 0.04 cfs is adequate to supply two households, the answer is yes it is.

I have accepted your proof as is. If you wish to amend your proof for a greater diversion rate, then send a letter and the \$50 filing fee. Otherwise, I will notify the region to conduct the field inspection this summer.

If you have any questions concerning this matter, please feel free to contact this office.

In my initial water permit Request, I had planned to have another house on my property and also to continue to raise livestock. This plan has been changed. I no longer have any livestock, and there is only (2) two dwellings on my property. (My sons Mobile home and my own home)

If my mathematics is correct at 0.04 CFS I could use up to 24,192 gallons per day. which is far more than I will use. So I apply for this amount of water usage.

The water will be used for the two households and garden & lawn care.

If more information is necessary please let me know.

RE: Permit No. 95-8271

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,
