Dear Mr. Coe:

Re: Permit No. 95-8249

Returned is the proof of beneficial use form along with your check No. 1304 (92-7009/3231) in the amount of \$15. The permit examination fee is based upon the amount of water you are diverting and beneficially using.

If you know the amount of water your well will produce, then indicate that amount and pay the fee accordingly. If you are not sure, then the amount of water proposed to be diverted for ten acres of irrigation and stockwatering is 0.20 cfs. The fee for the diversion of 0.20 cfs is \$50.

Note that a complete proof submittal is required by March 1, 1988. If you have any questions, please feel free to contact me.

Sincerely,

RITA I. FLECK

PROOF DUE NOTICE

RE: Permit No. 95-8249

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
