Dear Mr. Adams:

I regret the inconvenience and confusion caused in this matter and would like to take this opportunity to explain the permits necessary to withdraw water from a navigable body of water within the State of Idaho.

In 1971, the Idaho Legislature caused a law to be created which requires that all persons wishing to develop a surface water right must first file an Application for Permit with the Idaho Department of Water Resources. Once approved, this permit is considered prima facie evidence of a water right. The permit does not have to be renewed, but there are several conditions which must be met to retain the right. One of the main conditions that will be placed on your permit, if it is approved, is that you will have five years in which to complete the project and notify this Department so that an examination can be conducted and a license issued on the right.

In 1974, the Idaho Legislature caused another law to be created which requires that all persons who have placed or plan to place any object (pipeline, telephone line, cable, etc.) in a navigable lake, reservoir, etc., must first file with the Idaho Department of Lands. As you are aware, this permit must be renewed every five years.

If you have any further questions, I will be pleased to help you in any way I can, however, I may not be able to answer your questions concerning the encroachment permit. If you have any questions in that matter you should contact Mr. Marv Vandenburg with the Idaho Department of Public Lands at 701 River Street, Coeur d'Alene, Idaho 83814; Telephone (208) 664-2171.

Gentlemen:

On September 14th I was in your office and filed application for a permit to pump lake water for irrigation. At that time I paid the fee of \$30.00 (Receipt No. 24359)

We do not understand why the additional permit is required as per the letter enclosed from the Dept. of Lands in Boise. Other property owners in our area have not been required to do this.

If a temporary permit costs \$10.00, what about the \$30.00 permit we paid for in your office. We would appreciate some further information.

RE: 95-8221

Gentlemen:

Recently the Department of Lands received a copy of the above numbered diversion application which you submitted to the Department of Water Resources. Coeur d'Alene Lake is considered navigable and a temporary permit and an encroachment permit will be required from the Department of Lands, in addition to the Water Resources permit, for the pump and waterline.

Enclosed are encroachment applications with instructions on the back. Please complete them and return to this office along with a payment of \$60.00. The temporary permit costs \$10.00, runs for five years and is renewable. A portion of the \$25.00 for advertising will be refunded to you.

Please submit a plat and property description and design drawings with the application.

Very truly yours,

William A. Scribner
