RE: Recommendation Adjustment(s)

The final license recommendations for Right 95-08206 are based on the following.

C. DIVERSION AND DELIVERY SYSTEM

2. Place of Use:

SENW, S5, T45N, R4W

H. RECOMMENDATIONS

Beneficial Use	Period of Use	Rate of Div	Annual Vol
Domestic	1/1 - 12/31	0.04 cfs	1.2 afa
Recreation Stor.	1/1 - 12/31		4.0 afa

The home and pond are both west of the road running between the SENW and SWNE. The place of use for both uses is SENW.

The examiner states that the irrigation is less than $\frac{1}{2}$ acre, so it has been combined with the domestic use for a total volume of 1.2 af.

The pond is 190 X 120 X 9, which is 4.7 af. The examiner's calculation which multiplied the dimensions by .8 was perhaps his way of indicating a v-shaped reservoir, which should have been multiplied by .4; however, the examiner's figures are close enough to allow the permitted volume.

You were provided the proper forms in our proof due notice to you dated June 30, 1987.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: Permit No. 95-8206

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before September 1, 1987. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force or effect.

Sincerely,

RITA FLECK
Secretary/Records Manager
