RE: WATER RIGHT NO. 95-08153

Dear Mr. Pistorius:

Enclosed herewith is a copy of the Amended Water Right License issued on the above referenced permit.

During license review of Permit No. 95-08692, which shares the same point of diversion and system as this right, an error was found in the legal descriptions for the point of diversion and place of use. The legal descriptions should have reflected Section 9 rather than Section 10 as stated on your license signed June 13, 1988.

The enclosed copy of the Amended Water Right License supersedes any previous licenses.

We apologize for any inconvenience this may have caused you. If you have any questions, please feel free to contact our offices.

RE: AMENDMENT OF LICENSE

DATE: 19-AUG-1992

==========

During license review of permit 95-08692 which shares the same p/d and system as this right, an error was found in the legal descriptions for the p/d and p/u. Apparently, the field examiner transcribed incorrect legal descriptions from the map to the Field Report. The map was correctly marked in **Section 9**, but the license was amended and issued with **Section 10.**

Both 95-08692 and previously licensed 95-08628 on the same well, identify the **SWSE, S09**, T50N, R03W as the p/d. The application and approved permit on this right show the p/d and p/u in **SESE, S09**, T50N, R03W. A licensing amendment should have been sought to correct the 1/4 1/4 only.

The field exam and licensing amendment were incorrect, the permit holder paid the required amendment fee as requested and the license was issued in error. **The license should be amended to reflect the correct legal description of SWSE, S09 for the p/d and p/u.**
