Dear Mr. Kottke:

Enclosed is your Receipt No. 21061 in the amount of \$30.00 for the filing fee of the above-referenced Application for Permit.

Also, a review of the application has revealed that you wish to appropriate 18 gallons per minute for irrigation purposes. This amount is equivalent to 0.04 cfs of water and the Department will not approve an Application for Permit for this excessive amount unless it can be proven to the satisfaction of the Director of this Department that the extra amount of water is needed.

Therefore, unless we hear from you on or before January 25, 1982, we will take steps to reduce the amount of water for irrigation purposes to 0.02 cfs, which is equivalent to 8.977 gallons per minute.

If you have any questions, please feel free to contact us.

Gentlemen:

I am returning at this time my application for a permit,
amended to comply with the requests of your letter of December 9, 1981.

The only irrigation is by conventional garden hose.

As I indicated in the "remarks" this permit should have been
applied for by my general contractor, Mr. Art Fall, doing business as
Construction West, sometime between April and June of 1977. The pre-
sent application is made because I understand your office has been un-
able to identify an earlier application. If indeed Mr. Fall did make
application for me, I trust that my response on the present application
under question 7 does not waive any rights I now have.
